

PEACE PARLEY OPENS IN LONDON

LONDON, May 26.—(By the Associated Press)—Arthur Griffith, head of the Irish delegation which is in London to discuss the Irish situation with the British cabinet, had a preliminary conversation today with Winston Churchill, secretary for the colonies.

Griffith is understood to have outlined the policy of himself and his colleagues in arranging the agreement with Eamon DeValera, which it has been stated in some quarters may have the effect of nullifying the Anglo-Irish treaty.

It is expected that a further conference with additional Irish and British representatives would begin this afternoon.

Later Hugh Kennedy, legal adviser to the Irish representatives, Eamon Duggan, one of the treaty's signatories, and Kevau O'Higgins, minister of economics in the Dail cabinet, joined Mr. Griffith and Secretary Churchill.

It was said the afternoon conference, if held, would also be considered of a preliminary character. The Irish minister, Lloyd George, it is understood, does not intend to participate in the deliberations at this early stage.

The sessions probably will be continued over the week-end and if Michael Collins, head of the provisional government, crosses from Ireland tonight, as expected, the final conference is likely to be held Monday morning with Mr. Lloyd George present.

Ruth Not Eligible To Play

CHICAGO, May 26.—(By the Associated Press)—Babe Ruth, of the New York Yankees, today was declared by President Dan Johnson, of the American League to be ineligible to play until a complete investigation has been made of the argument with Camille Hildebrand, which resulted in the home run being put out of the game yesterday and then climbing into the stands when he became offended at the boing of fans.

Mr. Johnson said an investigation should be made at once and that a final decision would be made by tomorrow. Ruth however, will not be permitted to play today.

"I have received only the report of Camille Hildebrand," said Mr. Johnson. "I have started gathering complete evidence in the case and expect to have this in my hands by tomorrow. In the meantime, Babe Ruth will not appear in the New York line-up."

While Mr. Johnson made no official statement, concerning the probable length of Ruth's suspension, it was learned that the American League chief was of the opinion that a one day suspension would be an unusually stiff fine added, would be a punishment for the slugger, who has just returned to the game after a 21 day suspension by Baseball Commissioner Landis for playing post-season games last fall.

WASHINGTON, D. C., May 26.—(By the Associated Press)—Babe Ruth said he was sorry and added that "it seems that a ball player is always wrong" when informed today that Dan Johnson, president of the American League, had declared him ineligible to play until an investigation had been made of the dust blowing affair in yesterday's game at New York.

CHILDREN WORKING IN ONION FIELDS UNDER OUTRAGEOUS CONDITIONS

COLUMBUS, O., May 26.—(By the Associated Press)—How to stop the employment of from 3,000 to 4,000 children between the ages of 6 to 16, said to be working in Ohio's onion fields under "outrageous and unbelievable" conditions, was a problem which today had been placed before Attorney General Price by Percy Telford, state director of industrial relations.

Declaring in a letter to the attorney general that the children were working six days a week weeding and topping onions in the Hardin county and surrounding fields and that many of them, as old as fifteen years, were still in the first or second grades of school, Telford pointed out that they were unaffected by the state child labor law which exempted agriculture. He suggested that school laws governing attendance be invoked to take the children out of the fields and asked that the attorney general advise him as to procedure.

State health department investigators recently inspected the field, Telford said, submitting their report which declared that the families are living under insanitary conditions, that their homes were shanties and that there were no amusements and no churches. Many of the families, the report said, spent the winter in Kentucky and migrate northward in the spring to work in the onion fields. Wages range from \$1.50 to \$2.00 a day, it was said.

Telford said it was his purpose to do away with the employment of the children if it is possible to do so in any way.

"That such a condition exists in Ohio," said Telford, "is almost unbelievable. It is my purpose to strike at this evil and have it eliminated if possible to do so."

Telford points out that the child labor law of the state exempts agriculture but adds: "I am sure this exemption was predicated upon no such conditions as those existing in the onion fields of this state."

Asks For Guidance

If the child labor law is not applicable, Telford suggested, the school laws, requiring age and schooling certificates and requiring children to be in school a number of months each year, might be invoked to keep children out of the hard labor of the onion fields. He wants Price to guide him legally.

Telford submitted with his communication a report by E. U. Whiteacre, head of the workshops and factories division, in direct charge of labor law enforcement. Whiteacre and Dr. E. B. Starr, chief of the division of industrial hygiene of the state health department recently made personal investigations.

Youthfuls At Work

Many of the children between the ages of 9 and 15 still are in the first and second grades, Whiteacre says.

"The reason for the employment of children for weeding is that they are much more supple than adults," his report continues. "It is held that between the ages of 10 and 15 are the most efficient. They work ten hours a day, six days a week. Weeding is done by hand. That can weed two rows at a time are paid \$1.50 a day. As soon as they are able to weed three rows at a time they are paid \$2 a day.

Whiteacre said some of the mothers complained about the bosses and overworked being "extremely inconsiderate," telling instances of children being hurried up with profanity when they lagged behind. Families live in shanties with de-

Ohio Congressmen Ask That Childs Be Re-instated

WASHINGTON, D. C., May 26.—(By the Associated Press)—The Blair-Dover controversy in the treasury, described yesterday as closed by Secretary Mellon, was again laid before President Harding today with presentation of a petition signed by more than a dozen members of the Ohio delegation in congress, asking the reinstatement of C. C. Childs, of Fremont, Ohio, former supervisor of collectors of the internal revenue bureau.

Almost coincident with the presentation, it became known that Frederick Gellinger, of West Virginia, a special assistant in the accounts unit of the bureau, had been suspended pending investigation of charges against him. Mr. Gellinger was appointed by A. D. Sumner, deputy commissioner, who was displaced Tuesday along with Mr. Childs on order of Secretary Mellon.

Suspension of another official in the bureau, Samuel G. Patchell, chief pay roll examiner of the accounts unit, became known a few minutes after it was learned that Mr. Gellinger had been suspended.

WASHINGTON, May 26.—There was no statement forthcoming today concerning the attitude of Elmer L. Hoover, Assistant Secretary of the Treasury, following the announcement of Secretary of the Treasury Mellon, Mr. Dover still is in the West. Close friends of the former Ohio man do not believe the "war" in the Treasury is, at an end despite the statement of Secretary Mellon today that "the incident is closed, at least so far as the Treasury is concerned."

Mr. Dover has been recognized as being exceedingly close to President Harding. He was one of the Harding managers in the Northwest in the Presidential campaign, and the two have been close political friends for years. Official Washington is anxious to know just what will happen when Mr. Dover returns from the West.

Secretary Mellon, after a conference with President Harding late yesterday announced that no further action would be taken by the Treasury Department in the case of A. D. Sumner, of Iowa and C. C. Childs of Ohio, who were removed for their removal of Sumner and Childs from the office of deputy Commissioner of Internal Revenue and supervisor of collections respectively, through the consolidation of their units.

The Secretary said reports that Sumner and Childs would be reinstated were without basis, "so far as the Treasury Department is concerned," he added, "the entire matter is a closed issue."

Durand Out For Governor On Beer-Wine Platform

COLUMBUS, O., May 26.—C. Homer Durand, Coshocton attorney, will attempt to win the Republican gubernatorial nomination on a platform favoring light wines and beer. He filed formal declaration of his candidacy late yesterday with the secretary of state. In a statement Mr. Durand said, "I favor light wines and beer to drive out the illicit traffic in liquor."

Carmi A. Thompson, of Cleveland, and Harvey C. Smith, secretary of state, declared they are in the Republican gubernatorial race to stick to a finish.

Rupert Beetham, speaker of the house of representatives, another candidate, said he would withdraw from the race if Governor Davis decides to enter. Congressman C. J. Knight, of Akron, a possible candidate, announced at Akron that he would make no decision until he reaches Washington Sunday. He has said he will enter the race if Governor Davis decides not to enter.

"HUGO, FIRST" ADDS SPECIAL SHIPS TO FLEET TO SECURE RUSS TRADE

BY MILTON BRONNER
European Manager for NEA Service
BERLIN, May 26.—One day the captain of a Swedish passenger vessel plying between Sweden and Germany said to a German passenger.

"Who is that poor sea-sick fellow? He looks as if he might die before he landed in Sweden."

"He may be very ill," said the passenger, "but he won't die of it. What's more he will probably buy a hunk of Sweden as soon as he lands and has had a reviving cup of black coffee. And, by the way, he is a ship owner himself."

"He may be a ship owner," said the captain, "but he looks like a landman and he is certainly a bad seaman."

The hero of this little anecdote is Germany's greatest business man—Hugo Stinnes. The Swede was absolutely accurate. Stinnes is a landman and a bad sailor, but the thirst for ships is in his blood and he is rapidly coming to the fore as a new force in Germany's once more expanding and reviving mercantile marine.

Owens River Craft

Long ago he was one of the chief owners of German river craft. In fact, the Stinnes family has been associated with this business for about two centuries. And, however widespread have become the interests of Hugo Stinnes, he has never forgotten the family fortunes were started by transporting things in German rivers.

If you sit on a fine May morning on the terrace of a Dresden hotel and glance at the Elbe river below, your attention will soon be attracted to a big sturdy tug pulling up stream a long line of barges, each heavily laden with coal. Somewhere you will see the magic name "Stinnes."

Or go over to Coblentz where a few of our doughboys are still keeping watch on the Rhine and the Moselle rivers and once more you will see steamers, tugs and barges bearing the Stinnes name. This, in spite of the fact that under the peace treaty a large number of German river craft were surrendered to France and Belgium.

Buys Ocean Shipping

But important and money-making as these river lines are for Stinnes, he long ago began to turn his attention to the greater possibilities of ocean traffic. During the first half of the war he bought a large block of stock in the German East African and the Voermann lines. Later he obtained a big interest in the Deutsche Werft, a concern of Hamburg which builds ships. Another which fell into his all-embracing net was the Hamburg Veecher's Corporation, which is not only interested in shipping but owns hotels in Hamburg, Berlin and Frankfurt on the Main. Furthermore it is interested in German seashore resorts like Travemunde and has vessels that carry excursionists there. At Flensburg Stinnes has a company whose swift small ships ply the Baltic.

Within the past two years he formed the Hugo Stinnes lines and this new concern was the cause of one of the deepest humiliations of his business career. Stinnes owned a considerable block of stock in the once great Hamburg American Steamship Company and was made a director. The concern, beginning to recuperate from the paralysis caused by the war and the loss of its biggest and best ships was preparing to resume active steamship service between Hamburg and South America. The latter has always been a favorite field for German ex-

ENTIRE TRAIN MOST REMARKABLE TRAIN OF ITS TYPE OF LOCOMOTIVES

PHILADELPHIA, PA., May 26.—(By the Associated Press)—Flying pennants proclaiming it the "Prosperity Special," the largest and perhaps the most remarkable single train of locomotives ever hauled across the country, was scheduled to leave the Eddy-stone plant of the Baldwin Locomotive Works, at noon today for East St. Louis, Illinois. It consists of twenty oil burning engines of the Santa Fe type, each with its tender, nearly one hundred feet long, and weighing 621,000 pounds. The train is part of an order of 50 locomotives of this type built for the Southern Pacific lines. All of them are ready for delivery and the remainder will be forwarded as rapidly as possible.

Several coal burning engines, pullers and pushers, will furnish the motive power for the 20 locomotives making up the body of the train, which is nearly half a mile long and weighs more than six thousand tons. On account of some bridges not being able to bear the tremendous weight and to avoid narrow tunnels and clearances in certain sections, many detours were found necessary in planning its movement to the west. It will require at least six engines to haul the train around the Horseshoe curve, west of Altoona, Pa.

The train will move over the Pennsylvania railroad and will travel only during the day. It is due at East St. Louis at 6:00 p. m., June 5. No attempt at speed will be made and at many of the overnight stopping places and in a number of cities through which it will pass arrangements have been made by state and municipal authorities, commercial and industrial organizations and public school officials to review the train as it passes. At night stopping points opportunity for a close inspection of the locomotives will be afforded.

The locomotives are so large, Samuel M. Vancleave, president of the Baldwin Works, said, that it was impossible to haul the train through Philadelphia, Harrisburg or Pittsburgh. Neither will it be possible, he said, to pass through the city of Altoona.

NAMING OF A GUARDIAN FOR MATHILDE MCCORMICK REVIVES SPECULATION

CHICAGO, May 26.—(By the Associated Press)—Speculation over the result of 17-year-old Mathilde McCormick's engagement to Max Oser, Swiss riding master, was renewed today following the appointment of her father, Harold F. McCormick, head of the International Harvester Company, as her guardian.

Mr. McCormick was made his daughter's legal guardian, upon her own petition, in a brief court action yesterday afternoon, at which only an attorney was present.

Immediately the question as to whether Miss McCormick made the move to provide an easy way out of the engagement to the Swiss horseman, or whether the court action was taken to hasten the marriage. Neither Miss McCormick nor her father could be reached for a statement.

Swiss laws requires a girl of Miss McCormick's age to obtain the consent of her parents or guardian to marry. It was pointed out that if Miss McCormick wishes to cancel her engagement to Oser she needs only to have her father refuse his consent. On the other hand if Miss Mathilde wishes an early marriage, she must have a guardian who will approve it.

When Mr. and Mrs. McCormick were divorced, each of the three children, Fowler, Muriel and Mathilde, was given the choice of residing with father or mother, the two older ones choosing the father.

The guardian petition also revealed that Miss McCormick is not wealthy in her own right. She stated her whole personal property amounts to only \$10,000—in stocks, bonds and other securities—no real estate.

Immediately the question as to whether Miss McCormick made the move to provide an easy way out of the engagement to the Swiss horseman, or whether the court action was taken to hasten the marriage. Neither Miss McCormick nor her father could be reached for a statement.

Wage Decisions To Be Made Independently

CHICAGO, May 26.—(By the Associated Press)—Wage decisions by the United States railroad labor board affecting more than 400,000 men in the shop crafts and maintenance of way departments will be made independently of the rate cuts by the interstate commerce commission, according to an announcement by Ben W. Hopper, chairman of the board.

Wage scales for some classes of railway employees have been formulated by the board before the decision of the interstate commerce commission was known, he said.

All decisions by the board will be announced simultaneously, Mr. Hopper asserted. He declined to indicate what changes in the scales would be made beyond asserting that no reductions would be made in proportion to the rate cuts, as demanded by the roads.

The shop crafts and maintenance of way employees have asked for an increase in wages, while the railroads asked for reductions approximating ten per cent.

Majestic Near Home Port; Fails To Break Record

LONDON, May 26.—(By the Associated Press)—The White Star liner Majestic passed Lizard Head at 9:10 o'clock this morning (4:10 a. m., eastern standard time), thus completing her voyage from Sandy Hook bar in five days, 12 hours, 56 minutes.

It was reported at the time of the Majestic's sailing that she was attempting to beat the trans-Atlantic record held by the Mauretania, which crossed in four days, 10 hours, 41 minutes. This, however, was denied by the White Star offices in New York.

The liner carries a consignment of meat and lard which was rushed to her pier in New York harbor by the Chicago chamber of commerce in an effort to establish a record for such a shipment of seven days from Chicago to Southampton. As the shipment left Chicago at 1:30 a. m. on Thursday of last week, the chance of setting this mark has expired.

Klan Opens State Drive For Members

CANTON, O., May 26.—(By the Associated Press)—The purpose of the Ku Klux Klan is to band together all Protestant Gentiles who are Caucasian and American-born.

This was the declaration of Dr. C. L. Harrod, of Columbus, King Kluge, of the Klan in Ohio, in addressing 2,000 men and women who attended a mass meeting in Nilesia park here last night. The meeting according to Klansmen, opened a state drive for members and will be followed by similar gatherings in other cities throughout the state.

"We would have had 10,000 at the meeting if it had not rained," said an officer of the Klan, which claims 4,500 members in Stark county.

Both Dr. Harrod and Billy Parker, editor of "The Menace," devoted a good part of their speeches to an attack on Catholicism. Parker made a plea for subscribers to his publication and for new members for the Klan.

Opponents of the Klan here who protested to city officials against the meeting were the object of attacks by the speakers. Rev. Basil Newton, of Oklahoma, was not present and his place on the platform was filled by William Lloyd Clark, of Milan, Illinois, editor of "The Tail Splitter."

The meeting was orderly and forty policemen in attendance had nothing to do.

HOSPITAL DRIVE LITTLE SHORT OF \$100,000

Town To Be Thrown Open

The climax of the enthusiasm that has been characteristic of the drive for the raising of \$100,000 for the erection of a new Mercy hospital and training school for nurses, was reached at Friday's noon-day luncheon at the United Brethren church, when a complete report showed the second highest day since the drive started. The total of Friday's report was \$28,238 bringing the grand total of the campaign to \$98,616 or less than \$2,000 short of the one hundred thousand dollar mark. The enthusiasm of the workers was at fever heat. The men not only joined heartily in hand-clapping, but threw aside dignity and made the welkin ring with their shouts.

General Chairman Edward T. Reed, was as happy as a school boy at the showing of Friday. He said "Men, Portsmouth is going to have a wonderful hospital—this drive is gaining momentum and I have but little question that the quota will be reached—you are doing a magnificent work for a most worthy cause—keep it up. The town is going to be thrown wide open after six o'clock tonight. While we still insist that each team worker see his prospects, nevertheless you will be at liberty to go where you please and solicit anyone of your choosing. We are going to have a house to house canvass Saturday and Monday. Every family in the city and vicinity will be solicited, for we want to give every person in the community a chance to subscribe."

The chairman then called upon the various captains for reports and all but two responded. Team No. 2, captained by Chris Heer, won the honors of Division A by reporting \$1070. Team No. 14 in Division B, captained by Edward Appel, won the honors in that division with a report of \$2510. Incidentally Division B captured the flag in the fight between the two divisions. Mr. Heer and Mr. Appel were called to the front and presented with their trophies, incidentally each was handed huge watermelons, which were later sliced and devoured.

Chairman Reed then read the following telegrams amid much applause: St. Petersburg, Fla., Mr. Vallee Harold—My subscription to Mercy hospital is \$50. Best wishes. John B. Smith.

St. Worth, Tex., Frank Stanton—Two hundred dollars for Mercy hospital. Wishing you success. John Conroy.

Findlay, O., Hon. Vallee Harold—Happy to subscribe thirty dollars. George L. Gableman.

At this point Mr. Reed, with much feeling, read the following communication from the Sisters of St. Francis in which all those connected with the drive were heartily commended:

May 25, 1922.

Mr. Edward T. Reed,
General Chairman
Mercy Hospital Campaign Committee.

Dear Sir: The Sisters of Saint Francis wish to tell you how very much they appreciate the enthusiastic interest that you and all the members of your organization have taken in the drive now on for Mercy hospital.

We congratulate you on the wonderful success thus far achieved and are confident that you will more than realize the goal you have placed for yourselves.

The Sisters and the sick in years to come will beg God's gifts for their generous benefactors of today. May God continue to bless your efforts in this worthy cause.

Most sincerely yours,
THE SISTERS.

Mr. Vallee Harold was introduced at this point, and made one of the real talks of the campaign. He was deeply affected by the splendid

work that was being done and said so in language that was choice and delivered in a manner that bespoke the heart of gladness of the speaker. Mr. Harold was happy, too, because he held in his hands subscription of \$10,000, divided equally between the ladies of St. Mary's church and the ladies of Holy Redeemer church. Before reading these letters, Mr. Harold painted a pretty word picture, praising the workers for their loyalty and devotion to the cause that was so near the heart of the citizens of Portsmouth. He said in closing that "our finest memories will be the satisfaction that we are working for the good of those who may fall sick and ill." The letters follow:

May 25, 1922.

Dear Mr. Reed: Being inspired by the splendid efforts you and your associates are putting forth in a great work for humanity and wishing to show our admiration therefore, and as well to share in the merit of the same, we are sending you our subscription of \$5,000 for Mercy hospital.

Judge Thomas Home

Judge James S. Thomas arrived home on the late N. & W. train Thursday night from Wooster where he has been holding court for the past three weeks under special assignment. While the local jurist immensely enjoyed his stay in Wooster he was glad to get back with home folks and friends.

Suit In Foreclosure

Suit to foreclose a mortgage on a house and lot in Traflet addition was brought by The Commercial Building and Loan Company in Common Pleas court Friday against Harry E. DeLotelle and others.

The petition filed through Attorney John R. Hughes recites that the mortgage was given to secure a loan of \$3800 made to the defendant in November, 1920, only a small part of which has been paid, it is claimed.

G. L. Cooper, Lucy C. Cooper and James J. Bennett are made party defendants by reason of claiming some interest in the premises involved and the court is asked to require them to set up their interest, if any, and that the property be sold to pay the mortgage.

Put Gypsies to Flight

Deputy Sheriff Frank Bennett responded to two calls Thursday night in answer to complaints which poured into the sheriff's office about Gypsies annoying persons living in the vicinity where they were camped as well as persons passing along the road.

One band stopped alongside the Scioto Trail at the Tom Noel place and later he went to Sciotoville where another band had taken up headquarters for the night. The nomads were causing an uproar in the vicinity by their conduct and the deputy assisted by Detectives Einspanner and Pratt, put this band to flight. The Gypsies were traveling in motor cars.

P. H. S. CLASS PLAY PLEASES CAPACITY AUDIENCE; REPEATED THIS EVENING

Members of the Senior class of P. H. S. scored a decided hit when they gave the first presentation of "Pomander Walk," a three act romantic comedy by Louis N. Parker in the high school auditorium last night. A capacity audience greeted the cast that took part last night, not an empty seat being available when the curtains were pulled aside on the first act.

THE SECURITY BANK
PORTSMOUTH, OHIO

The seat sale for tonight is bigger than usual for the second night and another packed house is expected when the performance begins at 8:15. The cast this evening will be different from last night two casts having been chosen and drilled in order that more members of the class could take part in the class play.

Try to advance reports the play was something different from the usual run of high school class offerings. Mrs. H. H. Eccles of the high school faculty was coach of the play this year. Special scenery was secured from Columbus, and special costumes were also obtained for the proper staging of the play.

The play is in three acts, and the time is the year 1805. The setting of the play is romantic Pomander Walk, a crescent of five very small houses, near Chiswick, just outside of the city of London, on the bank of the Thames river. The entire play and actions therein, take place within a period of two weeks, or from May 25, 1805, until the evening of June 3.

The play unfolds the story of the loves, and sorrows of the little circle of people who live in each of the small houses. In the first house, with the British flag flying at topmast, dwells Admiral Peter Antrobus, (Howard Herdman) a man of action, and in his youth commander of the great British fleet.

In the next house lives Mrs. Pamela Poskett (Gertrude Hood) a widow of friendly personality, especially toward the Admiral, who, although he has only one good eye, still has the power to awaken a feeling of affection in the tender heart of the widow.

In the middle house resides Jerome Brooke-Hoskin, a one time servant, who has risen by perseverance to his present station, of which he is duly proud. In the fourth house the two Misses Pomander (Alice Weidner and Bertha Louise Solari) live together, if not with unanimity, at least with sisterly affection.

In the fifth house, and the only one of the quaint painted green, the other four being a bright canary yellow, lives Madame Lucy Lachenais, (Clayde Selby) a French widow, and her charming young daughter, Marjorine (Ruth Millard).

It is about this little group of people, that the plot revolves. In addition, John Sayle, tenth Baron Oxford (Spencer Schwartz) and his son, Jack Sayle (Fred Pride), also do their share in making action.

With the accidental meeting of Jack Sayle and Marjorine, and their falling in love at first sight, the story opens. The plot is filled with numerous mirth provoking scenes, and the acting of Admiral Sir Peter, and the widow, Mrs. Poskett, adds greatly to the comedy.

Each of the actors and actresses filled their particular role in a very capable manner, no matter how small it was. Mention of the characters portrayed by Fred Pride, and Ruth Millard, and those enacted by Gertrude Hood and Howard Herdman deserve special mention, because it was about the four alone named that most of the plot evolved.

The final scene, as most all endings in plays and books portray, showed four couples that through Divine Providence (or otherwise) were brought happily together, for better or for worse.

Preceding the first act, Miss Millard gave a charming little prologue ending thusly:

"Where is Pomander Walk?
"Why Close at Hand,
"Out Chiswick Way,
"Half way to Fairland."

The costumes used by the various characters were in keeping with the time of George the Third, while the scenery and stage effects were exceptionally good. The students all played their role with seriousness and the entire play lacked the frivolity and stiffness which frequently

French Have No Knowledge Of Crane's Conviction

PARIS, May 26.—(By the Associated Press)—The French foreign office has no knowledge of the reported conviction of Charles K. Crane, former American minister to China, by a French military court in Damascus on a charge of inciting a riot as reported in press dispatches. It was stated today.

Mr. Crane today continued his active discussion of conditions in Syria with leading French men in full confidence that the report of his conviction by a French military court in Damascus for inciting a riot was an error.

Mr. Crane appears to have expressed himself last week very plainly in the mandate commission of the League of Nations council in Geneva, regarding the disturbed political situation in Syria. The substance of his declaration was that the Syrians wanted, first of all, complete independence, and, failing in that, preferred that the United States take the mandate over the country. If the Americans were unwilling, he said, the Syrians preferred Great Britain, but under no circumstances wished to be under the French mandate.

The former diplomat, who points out that he was in Syria solely as a private citizen, admits that in the agitated atmosphere prevalent in Syria there may have been some feeling against him, although he declares that in neither Syria nor France has he met with anything but courtesy from the French.

BELFAST, May 26.—(By the Associated Press)—Since Saturday last (twenty-eight deaths from violence have occurred in Belfast, including six last evening and today. The body of a man was discovered in the street today with a bullet through the brain. In East Belfast trenches were dug in several streets, the inhabitants fearing an attack. During the sniping in the east end four men were attacked and numerous houses in the district were searched. Several rounds of ammunition for revolvers were discovered.

McAdoo Scores Republican Aims And Achievements

KANSAS CITY, MO., May 26.—(By the Associated Press)—Declaring the foreign policy of the present Republican administration is non-cooperation and that its tariff bill now pending is calculated to destroy foreign trade and increase the cost of living, William G. McAdoo, former secretary of the treasury, vigorously attacked Republican achievements and aims in two short speeches here yesterday and a longer address last night.

"Shirt tail diplomacy," the former cabinet member termed the present achievements of American foreign representatives.

"The administration," he said, "has abandoned shirt sleeve diplomacy for shirt tail diplomacy, because our envoys now sit meekly on their shirt tails and take no manly part. Instead of representing America with the vigor and directness which distinguished our diplomacy in more honorable days. No wonder we have gained the contempt and distrust of all the world. We now have the spectacle of our ambassadors and representatives slinking about the courts of Europe, using the back stairs of international assemblies, sitting in the galleries of world conferences, looking on, spying about, observing, but taking no responsibility."

The tariff, McAdoo said, would destroy foreign trade and injure the country and the world economically. The Republican doctrine to give to those who have and take everything possible from those who have not, he said. The four-power Pacific treaty was declared by the speaker to be "a feeble step in the direction of world peace."

Uncle Sam Seizes Chillicothe Theatre

The Chillicothe Gazette Thursday said:

The Royal Theatre is closed.

This was effected when two deputies of the internal revenue office at Columbus came here and seized the theatre and all its belongings, posted a notice on its doors to the effect that it had been so seized and placed an advertisement in the Scioto Gazette which appears today announcing the sale of the theatre's properties as a going concern or if

not in this manner piece by piece. The deputies informed the Gazette that Collector Miller's action was predicated on the failure of the owners to transmit to the revenue of

Five Seamen

Injured In Explosion

LOS ANGELES, CAL., May 26.—(By the Associated Press)—Five seamen were injured in an explosion aboard the submarine H-3 early yesterday, while the craft was on patrol duty off the Coronado Islands, forty miles from San Diego. It was announced when the vessel returned to her base here last night. The names of the injured men were not made public by the naval officials here. The explosion occurred in an engine compartment among the storage batteries of the submarine which is propelled by electric motors when submerged.

Lieutenant Theodore M. Waldschmidt, in command, immediately radioed for help. Captain W. F. Miller, commanding at the submarine base here, despatched the sub-chaser 306 to the scene with instructions to stand by. Meanwhile, the H-3 started to Los Angeles.

The five injured enlisted men were taken to the base hospital as soon as the H-3 arrived.

"They received burns in fighting a small fire which followed the explosion, but were not seriously injured," Captain Miller stated.

HALF THE FIGHT AGAINST ILLNESS

Keep the Liver Prepared to Do Its Duty in Cleansing the System. Black-Draught Will Help

Kernersville, N. C.—Mrs. Wesley Mahe, who resides near here, says Theoford's Black-Draught is kept in her home all the time, since it has proved very valuable when used to correct derangements of the liver, stomach and bowels, and to help prevent from developing such conditions. "For dizziness, headaches, colds, and similar troubles, Black-Draught is a wonder," according to Mrs. Mahe. "It helps carry away bile and cures the easiest of any medicine I ever saw."

"I have used Black-Draught with my whole family, and will continue to do so, as it has proven its worth. We are glad to recommend Black-Draught. My health is just fine."

Black-Draught has been found a useful adjunct in breaking up colds, when the use of a laxative or cathartic medicine is indicated. It acts upon the liver as a tonic, helping it to drive poisons and unhealthy matters from the system.

Biliousness, dizziness, coated tongue, bitter taste in the mouth, often warn you that your liver is out of fix. Don't neglect it. Prevention of illness is better than cure. Take Black-Draught for your liver. Be sure you get Theoford's.

Most druggists sell Black-Draught. Get a package, today.—Theoford's. —Advertisement

earn a wage of \$25,000 per production. But Lucinda first mistrusted his ability because of his appalling ignorance concerning rudimentary principles of social usage. Since the story they were concerned with had to do with people of fashionable New York, Lucinda thought it important that their manners should conform to approved convention; but Nolan was so little learned in such matters and his impatience with them was wholehearted. "Ah, what's it matter? Ninety per cent of your audiences are sold home from the back up, and the rest wouldn't think they'd got their money's worth unless they found something to beef about in a picture. Why worry about little things like that? Life's too short, and we're wasting time!" But that distrust of Barry Nolan's competency which troubled Lucinda's mind almost from the very outset of their association had yet to crystallize on the Saturday when Summerlad was expected home. To get rid of Lucinda's presence, which instinct was already beginning to warn him was silently skeptical of his claims — Nolan artfully suggested that she might like to review the rushes of yesterday's camera work. Assuming that she would find the projection-room empty, Lucinda made her way to it without bothering to remove her make-up but on opening the door saw a fan-like beam of lurid light wavering athwart its darkness, and would have withdrawn, had not Zinn's thick and genial accents hailed her from the rear of the long, black-walled, tunnel-like chamber. "Come right on in, Miss Lee. We'll be through in a minute. Just running some of the film come through from Joe Jacques yesterday. 'Great stuff that boy. Summerlad's putting over this time.' Then with a fluttering heart Lucinda identified her husband in Zinn's companion. "Shake hands with Mr. Druce, Miss Lee: new tenant of mine, going to work here same as you. Just signed a lease for space to make his first production." "What?" At that monosyllable of dismayed protest, Lucinda saw Zinn's little eyes of a pig grow wide with surprise. "But I am fortunate, Mr. Zinn, in already having the honor of Miss Lee's acquaintance," Bellamy took possession of her hand. "Is that so? You two know each other? Why don't you tell me?" Lucinda found her voice all at once, but hardly her self-possession. "It isn't—it can't be true! Bel: It isn't true you're—"

"Afraid it is, Linda." Bel's smile was lightly mocking. "The picture business has got me in its toils at last. Only needed that trip out here to decide me. Now I'm in up to my ears. Something to do, you know." When Zinn departed, however, Bel's manner changed. "I'm sorry, Linda—I really don't mean to be a pest—" "Then why are you here?" "Give me half a chance." "You had that chance weeks ago, and deliberately refused it." "But surely you got my note explaining I was called cast on two hours' notice, but would return as soon as I could?" "Possibly," Lucinda suggested with labored scorn, "you misaddressed it, forgetting which of your numerous feminine acquaintances you were writing to." "I addressed it," Bel insisted stoutly "to Mrs. Bellamy Druce." "If so, that explains it. They know me at the hotel only as Linda Lee." When the screen once more shone blank and the ceiling light flashed on, Bel was smiling cheerfully. "No wonder you fell for the screen so hard, Linda; you're exquisite, and no mistake." "You said you wanted to explain, Bel: you won't get another chance." He nodded soberly. "I can say all I want to in three minutes. Then you're free to call it quits for good, if you like." That posed her rudely. Did he mean—was it possible he meant he had become reconciled to the rift in their relations?

JACQUES kept the Summerlad company away so long that its return found the first Linda Lee production in full swing, with Barry Nolan in command. Lucinda playing the supple puppet of his whim. Fanny demurely walking through the feminine part of second importance, and Lorraine functioning at the peak of his capacity as executive genius. Why it should be so hard on him nobody seemed to know and Lorraine was too busy to explain. To all his grumpiness of haste and haste, his wife played silent but attentive audience; though oftentimes her pretty eyes would light up with an unspoken comment too pungent to be wasted and discreetly questioning a sympathetic confidant, would find it without fail in Barry Nolan. Irish both by descent and profession, Nolan had at least that sense conspicuously developed. What others possessed was a question which came to occupy many of Lucinda's spare moments. She couldn't account for Nolan's high place in cinema, unless a sprightly disposition, a fetching grin, infectious verve, impudence without end, and a distinctly indicated vein of genius at crack-shooting, summed up the essential qualifications of a director who pretended to

SHE WENT TO HIS ARMS WITH A CRY OF JOY. "Can you doubt that's what I'll like, Bel?" "Bellamy gave his head a stubborn shake and stepped nearer. "Please don't be angry because of anything stupid I may say. I came had been, here it had brought me to win you back at any cost, still made in love with you, absolutely unable to conceive of a life that didn't pivot on you, Linda. I was prepared to give you any pledges you could possibly ask—" "Did you flatter yourself any pledge you could give would mean anything to me, when you'd broken your word so often?" "I hoped I could make you understand what a blow your leaving me had been, how it had brought me to my senses at last, jolted me up on the water-wagon, where I've been ever since—I haven't had a suspicion of a drink Linda, since that night you ran away—and made me see what an unspeakable ratter I'd been, fooling around with women as I had. That's another thing I cut out like a shot. I haven't looked sideways at

BEGIN HERE TODAY
After five years of married life, LUCINDA Druce, New York society matron, concluded that wealth, youth, beauty, social position and sincere love, were not sufficient to hold the affection of her husband, BELLAMY Druce. Weak-willed and selfish, Bel had been guilty of a series of escapades in which promiscuous flirtation and drunkenness had combined to humiliate his wife.

A broken promise to reform causes Lucinda to leave him. Bel follows her to Chicago and is prevented from forcibly restraining her from going to Reno by the intervention of an unidentified young man. On the train, Lucinda meets her old friend, FANNY LONTAINE, who with her husband is going to Hollywood, where BARRY LONTAINE is thinking of forming a motion picture company. She learns that the young man who assisted her in escaping from Bel is also on the train and that he is LYNN SUMMERLAD, a prominent screen star. Lucinda has agreed to join the proposed motion picture company to take the star role. In Los Angeles Mrs. Druce, now to be starred as Linda Lee in the Linda Lee, motion-picture Co., becomes so interested that Lorraine easily persuades her to furnish the capital for the producing of the pictures. The weeks drag by and no work started on the proposed picture although the heavy expense is going on. Lorraine and Summerlad assure Linda Lee that it costs money to make pictures. Summerlad makes love to Linda and she more than half reciprocates. Nelly Marquis appears on the scene and Summerlad advises Linda to have nothing to do with

her. Summerlad has just left. Linda Lee has been asked by Summerlad and his director to take a small part in one of Summerlad's pictures. She accepts gladly and after securing her costume she returns to her room. On passing the room of Nelly Marquis she discovers that lady lying on the floor and gives her assistance. When Nelly revives she orders Linda away again. While taking her part in Summerlad's play, Linda discovers she is in love with him, and she also discovers among the uninvited guests, Bel who has followed her from the east. Fanny Lontaine thinks Bel's a priceless lamb. (Continued From Our Last Issue) She not only to call at the hour appointed or to send word of explanation. Lucinda had sacrificed the evening to sense of duty; a true sacrifice, for Lynn was leaving early next morning to spend a fortnight with his company in an Oregon logging camp. Losing patience, Lucinda called the Alexandria on the telephone, and was informed that Mr. Druce had "checked out" early on the morning, saying nothing of an intention to return. No note came from Bellamy the next morning, and nothing transpired in the course of the next several weeks to afford any clue to the riddle; with the upshot that Lucinda thought about her husband a great deal more than she wanted to or had at any time since leaving Chicago. It was strange, it wasn't like Bel to treat any woman so rudely.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Miss Wise—I want to ask a question in regards to a place that was in your column recently in regards to waste water. What is a person going to do with their waste water when there isn't even a sanitary sewer to connect to, and your place is lower than all the rest and said water just stands in the gutter? What must you do with said water. We can't drink it.

KNOWLEDGE SEEKER.

There are very few allers in the city which haven't a sanitary or storm sewer running through them. If there is none in your neighborhood I think the property owners should get together and ask council to install a sewer in the nearest alley to your property.

Dear Dolly—I have been married eight years and we have one small child four years of age. My husband is not mean to me, but I don't like him and I never did like him. My parents forced us to get married when I was only 14 years of age. Dolly, what do you think of parents like that? I don't want to leave my husband, because I am not very stout, and could not make my own living, but I cannot endure it any longer.

DAILY READER.

If your husband is not mean to you and you don't want to leave him, about the best thing you can do is to make up your mind to like him well enough to be reasonably happy. If I married a man and had to live with him I would try and make the best of it. It is just as easy to like him as it is to hate him, if you just make up your mind you are going to do it. Your parents may have had a hand in your marriage, but they did not push a husband on you without your consent. I'll bet you were going with this man and thought yourself in love with him at the time you married him. Of course I think they made a mistake when they let you look at a man at the age of fourteen, but they could not force you to go through the ceremony, even at that stage, if you did not want to do it.

Dear Miss Wise—I want your help and want it quick. I have been going with a girl for two years and she deliberately turned me down the other night for some reason. I am that was down here to a dance. I am so sore at that upriver boob that I don't know what to do. Those iron-ton guys ought to stay on their own bridge. Dolly, what would you do if a fellow cut you like that?

SORE ALL OVER.

I wouldn't think about him at all. I'd put a little medicine on the sore spot and get myself another girl, even if I had to go to Bridgerville to get her.

Dear Dolly—We are two chums, seventeen years of age, and would like to correspond with two cowboys. Could you furnish us the addresses of a couple?

Do you think you could "rop" them in, or would you expect them to lasso you? I cannot furnish you with the addresses, and if I could I would not. Such correspondence

would be decidedly improper and unduly like.

Lucasville, O.—Dear Dolly—Will you please print in your paper a recipe for chocolate pie, lemon pie and cookies. Also a recipe for making float and chicken pie?

MANY THANKS.

Chocolate Pie—One pint of milk and a square of chocolate heated. Add 3/4 cup sugar, yolks of two eggs, one teaspoon vanilla, thickened with one tablespoon cornstarch. Bake in the crust baked and fill with the above filling. Beat whites to a stiff froth, brown in oven. This is delicious.

Lemon Pie—One tablespoon cornstarch wet in water, pour in one teacup boiling water on stove, cream one tablespoon of butter, and one teacup of sugar together, and pour on hot cornstarch, let cool. Add one lemon, grated, one egg. Bake crust, separate and fill. Add beaten white of an egg to top and brown in oven.

Chicken Pie—Stew chicken until it drops from bones, make a sauce with butter, flour and milk, as much as desired. Sift one quart of flour rubbed with one-half cup lard, a little salt and two teaspoons of baking powder, wet with milk until you can roll. Place layer of crust in bottom, then chicken and gravy. Cover with crust half an inch thick.

Orange Float—One quart water, 4 tablespoons cornstarch, one cup sugar, cook, add the juice of one or two lemons; pour this over five sliced oranges, beat the whites of two eggs with a very little sugar, put on top; serve with whipped cream.

Constipation Can Be Blamed For Diabetes and Bright's Disease!

And, constipation is responsible for most cases of rheumatism, hardening of the arteries, brain fog, sluggishness, headaches and many other organic disturbances. Constipation, however, is not a "remedy," but a "disease" in itself, and it is in fact, authorities tell you THAT 90% OF ALL HUMAN ILLNESS IS DIRECTLY TRACEABLE TO CONSTIPATION!

With knowledge like that can you stand by and see yourself slipping physically; see your loved ones fall, as the prey of a preventable condition? Do not minimize the danger of constipation because you are only "slightly" troubled.

Inactivity of the eliminative passage creates toxic conditions which penetrate the intestinal walls, poisoning the blood and affecting the organs. BRAIN—Kiddie's Brain, cooked and branched—is nature's own positive and permanent relief from constipation. It is the most wonderful corrective food known. Brain is not a "remedy," but a "disease" in itself, and it is in fact, authorities tell you THAT 90% OF ALL HUMAN ILLNESS IS DIRECTLY TRACEABLE TO CONSTIPATION!

Kiddie's Brain is delicious, its nut-like flavor greatly adding to the enjoyment of eating cereals over which it has been sprinkled. Kiddie's Brain makes the tastiest of bakery dishes, such as cakes, raisin bread, muffins, macaroons, etc. All grocers sell Kiddie's Brain.

Mr. and Mrs. George W. Long, 1520 Tenth street, Mrs. Elizabeth Reel and Miss Caroline Snyder will spend Decoration Day with friends in Iron-ton.

YOUR BABY IN HOT WEATHER

Proper Feeding From The Start Means Health

SUMMER DOESN'T WORRY ME

BY MRS. MAX WEST
Late of the United States Children's Bureau

THE one serious danger to the average baby in summer arises from disturbances of the digestion. Someone has said, however, that many of the deaths every summer which are said to be caused by "gastric and intestinal diseases," should really have been attributed to "bad feeding."

In other words, a pitifully large number of these illnesses and many deaths could be prevented if the baby had been fed in the best way from the start. Since a disturbance of this sort may become serious in a few hours in very hot weather, there is greater need than ever for care at this time of year.

Breast-fed babies are far less likely to have an attack of this kind than the one who is fed otherwise, but even a breast-fed baby may become ill if the mother nurses him too often or at irregular hours, or in the night, and especially if she lets him eat solid foods too early.

Bottle-fed babies appear to me most liable to attacks of summer diarrhoea, and on this account every mother of a baby who is artificially fed should have the soundest advice

about the feeding of the baby in hot weather.

It is quite possible to take a bottle-fed baby through the hottest weather in perfect health, but to do this it is necessary for the mother to observe with unvarying attention, the rules which make this sort of feeding safe.

If the number of stools increase markedly, and the baby is having four or more a day, the amount or strength of the milk mixture should be at once reduced. If the baby is having frequent stools and they show undigested curds, or are loose, stringy or slimy, the mother should send at once for the doctor, or take the baby to the nearest infant-welfare station, or in some other way get good advice at once.

The food should be stopped, and the baby given nothing except a thin barley gruel, or broth, or nothing but cool water. One or two teaspoonfuls of castor oil may be given, to rid the body of the offending substance, while waiting for the doctor, if the baby seems very ill.

The sick child should be kept as quiet and as cool as possible. It will probably be best to hold all the milk for some time after the attack is over.

(Tomorrow: Concerning older babies)

Baking that does you credit

IT is a real pleasure to bake with Valier's Enterprise Flour. You can always be so sure that things will turn out just as you would like to have them. For Enterprise is milled from nothing but the creamy white centers of fine, strong gluten hard wheat. Its high quality never varies. It is dependable. Isn't that worth a few cents a sack extra?

P. S. Valier's Enterprise Flour has concentrated strength. Eight or even less cups of Enterprise go as far as nine of ordinary flour. See how few when you bake with Enterprise.

Adventures Of The Twins

BY OLIVE ROBERTS BARTON

This was what the little black fellows were doing

NANCY and Nick watched the Towdies for awhile making their funny dreams in their funny kettles and trying them up in their funny poppy-leaf bags, then they followed Mr. Peernabout, the Man-in-the-Moon, to another place. This was called Smokysoot Village. It was beyond the Golden Forest, and as grimy as the forest was bright. As the Moon-Man said, things mortals valued were of no value on the moon and things mortals threw away upon people valued highly.

Smokysoot Village was where the Chimney-Fairies lived with their leader, the Sweep. "They are just as busy unmaking my dreams as the Towdies are making them," explained Mr. Peernabout with a wise wag of his head.

This was what the little black fel-

lows were doing. Untying bags and pouring out smoky looking stuff into a big barrel. Some of it was green, some yellow and some brown. "They're ugly dreams," said Mr. Peernabout. "You see old Eema Meena, the Magician, makes awful dreams sometimes and sends them to the Dream Seller, pretending they are nice ones. The Dream Seller then sells them, not knowing what they are. So it's the duty of my Chimney-Fairies to sit on the chimneys o' nights and stop all the fairies with horrid dreams."

"But how can they tell?" asked Nancy.

"All the good dreams are in poppy-leaf bags, and old Eema Meena puts his bad dreams into toad-skins. My Chimney-Fairies can see in the moonlight," replied the Moon-Man. (To Be Continued)

The rooms were attractively decorated with roses and peonies and the afternoon was pleasantly spent in playing bridge. At the close of the games Mrs. Charles Hall was presented with the first favor for the highest score and Mrs. Forrest was awarded the second prize. Later a number of friends came in for tea.

Probe Of "Bulb Trust" Demanded

WASHINGTON, May 26—Action to break up an alleged monopoly by the General Electric Company in the manufacture and sale of electric bulbs was recommended by Samuel Untermyer, counsel for the Lockwood investigating committee of New York, in letters to Attorney General Daugherty and Senator La Follette.

Mr. Untermyer in his letter to Senator La Follette said he had suggested action against the company to Attorney General Daugherty, but that Mr. Daugherty had refused to permit the action suggested to be taken.

The attorney declared that the General Electric Company controlled 98 per cent of the electric bulb business, and was dominated by J. P. Morgan and Company.

"It was suggested," he said, "that he (Mr. Daugherty) instruct the United States district attorney at New York, in whose charge other prosecutions for other violations of the anti-trust laws developed by the committee had been placed by him and who had shown a commendable disposition to press those cases. This the attorney general declined to do."

"After considerable and repeated further efforts to induce him to act, I offered to take over the prosecution on behalf of the committee represented by me without cost to the government in order to secure a prompt abatement of the extortion to which the public was being subjected, but have been unable to secure his assent."

Mr. Untermyer suggested legislation to invalidate certain bulb patents controlled by the General Electric Company and direction by Congress to the attorney general to place the General Electric case "in the hands of distinguished independent counsel."

Senator La Follette, in presenting the letters, said he believed it was "high time that the Senate take account of the conduct of the head of the Department of Justice."

Sexton, Accused Of Stealing Cigarettes From N. & W. Caught; Taken To Chillicothe

The Chillicothe Gazette Thursday said: Sheriff Immell returned from Minneapolis last night with Earl Sexton, alias E. G. McCoy, wanted here on a grand jury indictment for complicity in robbing an N. & W. freight car of a lot of cigarettes.

Sexton was arrested in Minneapolis last week, on word sent by Immell to the chief of police there.

Sexton had written, a girl in Columbus to write him care the general delivery at Sparta, Wis., addressing him as "E. G. McCoy." N. & W. Detective Elmspater learned of this and notified Sheriff Immell. The latter at once wired the chief of police at Spokane to be on the look-out for Sexton.

Later the Spokane chief wired Immell that Sexton had ordered his mail sent to Minneapolis. So Immell at once notified Chief Jensen there to be on the lookout. Warrants for Sexton's arrest were also rushed by Immell to Minneapolis.

Last Friday, Immell got a wire from Jensen saying Sexton had been nabbed there and would come here without papers.

Had Money In Sleeve
Sexton, it appears, fooled the Minneapolis police so far as money on his person was concerned, though he didn't fool Sheriff Immell. All there to be on the lookout. Warrants for Sexton's arrest were also rushed by Immell to Minneapolis.

Sexton makes the sixth man charged with cigarette robbery that has been apprehended here, the sheriff's force working in co-operation with the N. & W. detectives, on charges of robbing the N. & W. of cigarettes. Four of them have already been convicted and sentenced to the penitentiary, namely: Laubert, Conrad, Frazier and Kordell. Littlejohn got free and Sexton is now to be tried.

The value of cigarettes stolen at various times from the N. & W. runs into thousands of dollars.

Stinnes

(Continued from Page One)
plottation and German business
firms have many friends there.

Stinnes Is Humiliated

Imagine the surprise of the man-
aging directors, therefore, when one
fine morning as they stepped their
coffee and perused the Hamburg pe-
pers, their eyes were claimed by a
flaring advertisement in which the
Hugo Stinnes lines announced the
inauguration of a regular service be-
tween Hamburg and Buenos Aires.

For a fellow director to steal a
march on them like that wasn't con-
sidered "clabby." There was an im-
mediate concave and Stinnes, the
billionaire in German marks, was
flung out on his ear. Not, of course,
literally and physically. But his
name ceased to adorn the board of
directors of the Hapag, as the great
shipping company is known all over
Germany. Stinnes' retort was two-
fold—he advertised and pushed his
South American lines more than
ever and he immediately took some
of his ever-ready cash and invested
it in the North German Lloyd, the
great Bremen rival of Hamburg.

It was in connection with his ship-
ping interest that Stinnes got some
of the publicity he so much shuns
and hates.

There were built for him three
new 12,000-ton ships. Stinnes decided
to name them Ludendorff, Hinden-
burg and Tirpitz. As representa-
tives of Germany were then con-
ferring with the allies, the latter
took this action of Stinnes as a good
sign that Germany was still Kaiser-
ist, militarist and unrepentant. Inside
Germany many of the Socialist lead-
ers went after Stinnes with a sharp
stick.

The whole furor surprised him
immensely. A totals misreader of
popular and political psychology, he
had chosen the offensive names for
his ships thinking of the men who
bore them as persons whom Ger-
many once idolized and imagining
the people still did so. When he
realized his error, it was too late.

But that is about the only mistake
that can be charged up to Stinnes in
the shipping game. One of his great-
est strokes has been to plan two
fleets of ships. One is to consist of
12,000-tonners and the other of 3000-
tonners. His experts have advised
him that 12,000-ton ships are not
only much cheaper than the Titanic
vessels, are not only run more eco-
nomically, but for ton for ton will per-
haps earn more money and give bet-
ter service than the huge floating
hotels.

Has Eye on Russia

The Stinnes 3000-ton ships are be-
ing built for a specific purpose.
Stinnes, like every wide-awake Ger-
man business man, has his eyes on
Russia. Some day and not very
long off he expects that immense
country to be opened once more to
the commerce of the world. With
the almost total breakdown and ruin of
the Russian railways, the main
means of transport of goods to and
from Russia for some years will be
by sea. Stinnes has an entire de-
partment of his executive branch
here in Berlin devoted to the study
of Russia. They are experts on
Russia.

Only recently the director of this
department returned from a personal
visit and reported to his chief that
eight years of war, blockade and neg-
lect have put Russian harbors into
a terrible state. The big freight
ships that America and England
have will probably not be able to ne-
gotiate those harbors. But where
they fail, the Stinnes 3000-tonners
will glide in like ducks on a mill
pond. So will the Stinnes tankers
built at Kiel.

Already Stinnes' ships are busy at
work feeding other branches of the
Stinnes business. They bring iron
ore from Sweden and timber from
Finland. Thus they fetch raw ma-
terial for Stinnes' blast furnaces and
Stinnes' paper, pulp and cellulose
mills. And they carry back to Swe-
den and Finland, from Stinnes' mills
some of the manufactured materials
those countries so badly need. As
they ply back and forth, these ves-
sels also pass another interesting set
of Stinnes' ships. These are mere
snacks, but they carry the Stinnes
house flag and they are engaged in
the very important job of helping
to feed Germany. They are the
Stinnes herring fleets.

Stinnes' control of many German
newspapers and his successful com-
binations even in this field are told
by Brommer in his next article.

Many distinguished men from

Pennsylvania and adjoining states
and officials of the Southern Pacific
and railroads attended exercises
marking the departure of the "Pros-
perity Special."

"The trip has been made possible,"
said Mr. Vanclain, "by the courage
of the Southern Pacific and Pennsylv-
ania railroads. It marks the return
of prosperity to the nation, for pros-
perity returns to the railroads after
everything else."

"It also demonstrates the safety
and efficiency of the modern trans-
portation system and it will demon-
strate that the present railroad
bridges of this country are the
safest in the world."

**Gary Urges Tariff Be Taken
Out Of Politics; Delay Bonus**

NEW YORK, May 26.—(By the
Associated Press)—Elbert H. Gary
in his address as president of the
American Iron and Steel Institute, in
session at Hotel Commodore today,
advocated that congress take the
tariff out of politics; that it play no
favorites in its tendency to regulate
things; that it substitute a sales tax
for the income tax; and that it for-

get the soldier bonus until the nation
is less severely burdened financially.
As for the business future of Amer-
ica, Mr. Gary described himself as
"still an optimist" in the iron and
steel industry. He said "The profits
are not satisfactory, but few, if any,
ought to be doing business at a loss."
"Pity the blind, deaf and foolish
pessimist of the United States," he
advised members of the institution.

**Hays Asks Public To Help
Moving Picture Producers**

PITTSBURGH, Pa., May 26.—(By
the Associated Press)—A plea for
the public to stand behind and help
the motion picture producers in their
efforts to maintain a clean moral
tone in film production was voiced
here today by Will H. Hays, presi-
dent of the Motion Picture Produc-

ers and Distributors of America, be-
fore an audience at Carnegie Insti-
tute.

He declared he was entirely con-
vinced of the sincerity of the large
producers and distributors in the or-
ganization and he pledged his hear-
ers the best efforts of his associa-

tion. "While asking for your aid and
cooperation," he said, "I would like
to ask too that you judge us by our
actual performances, rather than by
any promises we may make. We are
building this industry for years to
come—for generations to come—and
though our progress may seem per-
haps slow at the beginning the re-
sults we are confident, will be cer-
tain and permanent."
He stated that \$300,000,000 a year
is paid in movie admissions and that
the industry represents an invest-
ment of \$500,000,000, employing 50-
600 persons at annual salaries to-
talling \$50,000,000.

ter in his pocket indicated that he

phia.

Building Boom Goes Merrily On

"There is more real building going on in this city than in any I have visited in Ohio," state building inspector said while in the city Wednesday. "It is one

of the towns where I found in looking over the building permits that the permits for dwellings and business blocks and rooms

exceed those for garages."

The building boom has reached all section of the city and goes on uninterrupted.

the turf on Ohio field where the meet is to be held, but the track had quickly dried out and barring further rain, was expected to be in first class condition for the runners.

Mr. and Mrs. T. B. Carpenter, Harrisburg, Pa., suffered from kidney trouble. He says: "My wife and I suffered from kidney trouble and had rheumatic pains all through the body. The first few doses of Foley Kidney Pills relieved us, and five bottles entirely cured us. Although we are both in the seventies, we are as vigorous as we were thirty years ago." UNITED STATES OFFICIAL GOVERNMENT WAR FILMS COMING TO SUN THEATRE

The opportunity of a life time is offered to this city to witness the U. S. Government Official war films showing the actual battles of Chateau Thierry, Argonne, St. Mihiel, when these wonderful and impressive pictures will be shown for a limited engagement at the Sun Theatre for 3 days commencing

Monday, May 29, with showings daily at 2:15, 4:15 and 9 P. M. Though the pictures do not attempt to show the experience of any one soldier or unit, they follow a chronological order beginning with the first trip of the Leviathan carrying the American soldiers overseas. Every phase of fighting in the great war is shown.

Premier Lloyd George Gets Vote Of Confidence After Stirring Debate In House Of Commons

LONDON, May 26.—Once again Lloyd George appeared in the House of Commons yesterday to render as prime minister on account of his stewardship at Genoa, and once again, after a precise and carefully worded statement and an eloquent rebuttal of criticisms directed against him, he received the support of the House in what is considered the equivalent of another vote of confidence.

The House by an overwhelming majority of 235 to 26, rejected an amendment moved by Rupert Gwynne, Unionist, to the motion on which the debate was based as a means of expressing the dissatisfaction of the House with the premier's exposition. Mr. Gwynne had been most vehement in his denunciations of the government, asserting that the premier had spoken only of what might have happened at Genoa, not what really did happen there.

For an hour and a half the premier gave a calm exposition of the conference to which the veteran, Herbert H. Asquith, the Labor leader, John Robert Clynes, and Lord Robert Cecil replied, criticising the six weeks' session at Genoa as having accomplished little or nothing toward the rehabilitation of Europe.

Premier Is Aroused
The criticisms aroused the premier and he thundered answers towards the opposition benches. After a spirited scene in the crowded House, amid handclapping and shouting at the passage between the premier and Lord Robert Cecil, Lloyd George's second speech ended dramatically as he silenced the House and solemnly proclaimed a policy of co-operation with the French democracy. There was loud cheering as he resumed his seat.

The debate which followed the prime minister's speech brought many allusions to the relations between England and France, which are exciting greater contentions feelings between the different sections of the House than even the policy toward Russia. Mr. Lloyd George displayed great impatience with those critics who advocated going along without France, as he exclaimed:

France's Aid Required
"You cannot settle the reparations question unless you carry the judgment of France along with you, and you cannot do that by flouting the Versailles treaty and trying to ignore France."

Mr. Asquith, who spoke after the premier's recital of the Genoa events, thought Mr. Lloyd George had provided the Bolsheviks with high authority for the principle that a basis for conservative society in Russia might be found in the adoption of a policy of confiscation. He contended that the Genoa conference had resulted in nothing of importance except the true fact, but the real fact was that a more solemn and enduring pact had already been entered into by all those nations except Germany and Russia in the covenant of the league of nations.

Lord Cecil's Criticisms
Lord Robert Cecil's criticisms were mostly concerned with the United States and France, and also with the private conversations at Genoa. He urged that if there was any possible way to comply with the conditions laid down by the United States government by participation in the League conference, it should be done. He considered the relations between England and France worse than before the conference and appealed to the House not to moderate the grave danger of a breach with France.

Cambridge Gets Meet Of Ohio Baptists

CLEVELAND, May 26.—Moving picture films which feature men and women whose morals are of questionable character should not receive patronage of Christian men and women, was the sense of a resolution adopted at the closing session of the convention of Ohio Baptists here today. Also films which tend to ridicule the ministry were to be discouraged. Indifference as to enforcement of the federal prohibition amendment in many localities was also held to be a matter of regret in discussions during the day's proceedings. Praise was voted to the work done by Denison University at Granville during the year. Next year's convention will be held at Cambridge, Ohio.

Klan Stages Rally At Canton Without Court Interference

CANTON, O., May 26.—In spite of protests of Canton citizens and the Chamber of Commerce, the local branch of the Ku Klux Klan staged a rally in Nimishila park last night. A crowd of about five hundred gathered in a drizzling rain. A corps of police and deputy sheriffs to quell any outbreak was on hand, but there was no disorder.
J. C. L. Harrod, king klange of Ohio, was the principal speaker. No injunction was sought by those opposed to the Klan, according to court officials, although officials of the Urban League, a negro civic body, had announced they were considering asking for an injunction on the same grounds as set forth in securing a court order in Akron Wednesday night.

Negroes Make Protest
COLEMAN, May 25.—Steps were taken by five local negro organizations here today at a protest meeting to seek to prevent holding of a Ku Klux Klan meeting here next Saturday. About 75 negroes attended the meeting.
A. J. Foster, assistant secretary of the National Association for the Advancement of Colored Men, presided at the meeting and later headed a committee, which called upon Safety Director McChun.
Mr. McChun referred the committee to Sheriff Holycross, inasmuch it is understood the meeting of the Klan is to be held at a park outside the city limits.

JEREMIAH SPEAKS BOLDLY FOR GOD, REBUKING NATIONAL SIN--LESS ON JER. 26:8-16

Jeremiah Exalted of Jehovah (Jehovah). Appointed of Jehovah (Jehovah). Jehovah Throws (Honesty). Jeremiah the son of Hilkiah, a priest of Anathoth of Benjamin. Not the high priest Hilkiah who discovered the book of law in Josiah's reign (2 Kings 22:8). For Jeremiah's father was not described as priest or high priest, for instance see (1 Kings 11:29-35). Now, beloved, while there is a vast difference in chronological datum, yet we may say about 629 B. C. during the 13th year of Josiah's reign while as yet a mere youth at Anathoth, about three miles from Jerusalem, the word of Jehovah came to him, again we may say just as manhood was opening out to him, God calls upon him to lay aside his natural softness and timid self distrust and take up the prophetic ministry that he by the officers of the word of God may be able to root out, throw

down, build and plant. Note God said, "Before thou comest forth out of the womb, I sanctified and ordained thee a prophet unto the nations." (Jer. 1:5). Now, beloved, just here let us contrast, Last Sabbath we saw a king gathering the people into the Temple to hear the word of God. Now then, today we see the priests and the people driving out of God's prophets from the Temple simply because he was bold enough to deliver God's message. Suffice me to say here one of the greatest needs at this moment is men, I mean real Godly men, sanctified men, God called men, bold men, men that will stand and plead for the great standard of (Jer. 6:16). What constitutes scriptural boldness? See Acts 4:13, 28:31; Phil. 1:20; 1 Tim. 3:13; 2 Cor. 3:12; Eph. 3:12; 2 Cor. 7:14; 1 Th. 10:19; 1 Th. 2:22; Acts 13:46. Now, dear readers, why all this persecution? In our last lesson they said they would all stand to it (2 Chron. 34:32). Next we notice the persecutors getting busy. God's prophet is arrested. Note 2 Tim. 3:12; Matt. 5:10, 11, 12. The priests arrested him and said he must die. Contrast, Now the priests or religious leaders arrested Jesus Christ, the prophet of prophets, and they said, "away with him." Now beloved, space will not permit me to take up the various characteristics of this great lesson separately, but I implore you to contrast it as a whole with that of our blessed Saviour. He was to be of the tribe of Judah (Gen. 49:10; Heb. 7:14). He was to be of the house of David (Isa. 11:10). The place of his birth was foretold (Micah 5:2; Matt. 2:1). The time of his birth was also mentioned (Luk. 2:7-9). He was to have a great predecessor (Mal. 3:1; Isa. 11:3; Matt. 3:12). He was to work miracles (Isa. 35:5-6). He was to make a public entry into Jerusalem (Zech. 9:9; Matt. 21:5). He was to be rejected, despised, a man of sorrows, acquainted with grief (Isa. 53:2-3). He came unto his own and his own received him not (John 1:11). He was scourged, mocked and spit upon and given to the smiters (Isa. 50:6; Matt. 27:30 and Matt. 26:67). His hands and feet were to be pierced (Is. 53:5; also see Matt. 27:35; Ps. 22:16; Matt. 27:34-35). He was to have gall and vinegar (Ps. 69:21; Matt. 27:34-35). His garments were to be parted (Ps. 22:18; John 19:23-24). He was to be cut off by a violent death (Isa. 53:8; Dan. 9:26). He was to be pierced (Zech. 12:10; John 19:34). He was to make his grave with the rich (Isa. 53:9; Matt. 27:57-60). He was to see no corruption (Ps. 16:10; Acts 2:29-31). In conclusion, who was Jeremiah called the weeping prophet? (Isa. 44:4). How did the priest charge Jesus with speaking against God? The Holy place or Temple? (Mark 14:58). How was the same charge brought against Stephen? (Acts 6:11-14).

Annual May Festival Tomorrow

For the past two years, the Girl Scouts and Community Club girls have staged a May Festival on the Children's Home park on the hilltop, and this year they will not be found wanting.
Plants and costumes are all but completed for the big festival on the park next Saturday. Mark Selby, chairman of the park commission, has promised to have the lawn mowed, so all will be in fine shape. The exercises will be held in the big "howl" building between the Indian Mound and the building, so that everyone will have a good view.
Over 100 girls will take part in this year's festival. The costumes are beautiful and varied, and the directors hope to outline what they have ever done before.
The festival will start promptly at 4:30 p.m.
There will be also a booth on the grounds where ice cream, lemonade and home baked articles and candy will be sold. Money taken in at the booth will go for festival expenses.

The way to be sure of getting fine quality in milk—as in other packaged foods—is always to look for the name Libby on the can.

For true to the Libby ideal, Libby's Milk is as fine as human care and skill in handling can make it. It's cows' milk, made double rich by evaporation, then sealed air-tight in cans.

WASHINGTON, May 26.—Warren Harding took his old title, "editor of the Marion Star," today in order to be off with three score Washington newspaper men in the first annual tournament of the Washington Newspaper Golf Club.

The president some time ago joined the club, paying the annual dues of one dollar, and after turning in his average score was given a handicap of 22 strokes for play in today's tournament.

Thompson And Smith In Governor's Race To Stick

COLUMBUS, O., May 26—Carmel A. Thompson and Harvey C. Smith are in the race to stick for the Republican nomination for governor, they declared here today. Colonel Thompson made the statement after he had talked with Governor Davis. On the other hand, Speaker Rupert Beetham of the House of Representatives, after calling on the governor, said he would withdraw from the contest for the nomination if Governor Davis should decide to seek reelection. Congressman C. L. Knight also has declared he would not enter the race if the governor became a candidate. As for C. Homer Durand of Coshocton, he filed his candidacy with the Secretary of State to end all doubts as to whether he would go through with his beer and light wine plans. Colonel Thompson said he called on the governor to talk over the political situation generally, as did Mr. Beetham. Both left the city soon after their visits at the state house. "I have no thought of withdrawing," said Thompson. "I am in the race to stick." Smith expressed his intentions in a similar manner. Leaders in Conference Among other Republican leaders who conferred with the governor, were Major Charles W. Montgomery of Newark, chairman of the Republican State Central Committee, and George H. Clark, Canton, chairman of the State Executive Committee. Neither told of results of the conferences. Clark left for Akron, where presumably he will call on Congressman Knight. Knight, in a statement issued at Akron, said he would announce no decision until he reaches Washington Sunday adding that he expected to have word by that time from Governor Davis as to whether the governor will run again. Davis Wants To Retire Persons who talked with the governor today said Davis still expresses himself as preferring to retire from the office but that he hasn't conclusively made up his mind.

TREATIES PRAISED BY PRESBYTERIAN REPORT

DES MOINES, IOWA, May 26—(By the Associated Press)—Interference with Protestant and especially Presbyterian evangelization in South America, was charged today in a report by the board of foreign missions of the Presbyterian church in the United States of America, submitted to the 134th general assembly on the last day of its session. Overt and open attacks upon native workers were charged in the report, quoted from minutes of the Brazilian mission "that the Roman Catholic church has officially declared 'guerra san tregues' (war without quarter) against Protestantism in Brazil." "Archbishops, bishops and inspired journalists," the report said, "have launched inflammatory appeals to national sentiment against Protestant missionaries." The report cited alleged instances where the missionaries were referred to by priests as "spies of the United States." Looting of a Presbyterian church mission by a mob of 300 men and the threat of lynching of the pastor, the Rev. Andre Jeunon, was also charged.

DES MOINES, IA., May 26—The Wood-Forbes investigation in the Philippines, the situation in China, Mexican and Japanese relations, the non-cooperative movement in India, and the Near Eastern question were touched upon in the report of the Presbyterian Board of Foreign Missions, which was presented here today to the General Assembly of the Presbyterian Church in the United States of America. Rev. George Alex. Anderson is president of the board. The Wood-Forbes report was declared, despite "its recommendation of making haste slowly, a tribute to the good sense, the desire for knowledge and the idealism of the Filipino people." The report of the mission board asserted that the Four-Power Treaty would help solve "one of the larger difficulties that confront the Philippine program, viz: the danger of aggression by other nations." Speaking of the Filipino people, the report continued, "their course of active co-operation in the administration of the government is in great contrast with the non-co-operative campaign of the nationalists in India." In China, despite banditry, corruption of officials which "has never been worse," and revolution, the report stated, "the life of the average Chinese, mostly villagers, is jogging along about as usual." Strained relations with Japan, it was added, "have been noticeably improved by the Washington conference." The Washington conference was also credited with dissipating much Japanese suspicion of America. The allies were censured for "permitting, by apathy, opportunism and timidity, the Nationalist Turks practically to dictate terms in the Near East." The latest decision of the allies, the report added, "which apparently leaves the Armenians under the sovereignty of the Turk, seems to be shocking betrayal of justice. Nor can the United States escape responsibility. The plea that she must avoid entangling alliances does not warrant her refusal to insist on fair play, when a helpless and beseeching sister nation is being brutally attacked, robbed and thrown out to die."

NEW BOSTON

The annual concert of the music department at Glenwood high school last night was very beautifully rendered by the children. Their work showed the result of excellent instruction. The rendition of "The Stolen Flower-Queen" by the small children of the music department of Glenwood high school was very beautiful. Their supervisor, Miss Dorris C. Moore, is to be congratulated for their excellent performance.

The story of the play is as follows: The flowers, coming one morning to greet the queen, are greatly disappointed to find the throne empty. Johnny Jump-up tries to cheer them with a song. Suddenly the Weed King and his flowers appear. They have hidden the Flower Queen in the Weed Kingdom and unless the flowers can find her in a day, the Weed King will come to rule over them.

The frightened flowers call on the Fairy Queen for help. She summons her various assistants, who in turn search in every corner of the earth, but in vain. When all seems hopeless the Boy Scouts appear, bringing the Flower Queen, whom they have rescued, and the Weed King, whom they have captured. They all decide to send the Weed King to the Wizard of the West to be transformed into a useful plant. In gratitude for her release the Flower Queen bestows gifts of happiness and prosperity upon the Boy Scouts.

FIRE DESTROYS STORE Auto Dealer

Robbed

The general store of Tussey, Sexton and Co., located at Chinnville, Ky., east of Greenup was destroyed this morning at about two o'clock by a blaze that is thought to have started in the basement of the big store. Officials are investigating reports that the fire was of incendiary origin. The loss from the conflagration will reach about \$5,000. A quantity of dry good was removed from the store during the progress of the fire. The new store, which was to have been operated by Tussey, Sexton and Co., prominent Russell business men, was not completely stocked and much of the stock in the building was not unpacked.

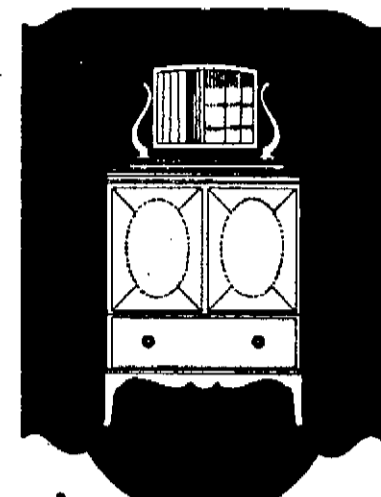

CINCINNATI, O., May 26.—(By the Associated Press)—A note reading, "Better be careful, young man. You're out of your territory," and signed "Sandford," which was found today fastened on the windshield of the automobile of Clyde Hutzler, 23, auto dealer of Covington, Ky., is one of a few clues that the police have in the alleged robbery, and serious shooting of Hutzler on the Chesapeake and Ohio railroad bridge late last night.

Hutzler says he was held up by two men and robbed on the bridge while he was on his way home in his automobile. He says that the thieves stole his car and took from his pockets \$100 in cash and his gold watch. He told police that he struggled with the robbers who shot him.

May Quality Demonstration Offers Superlative Value in "The 1776"

In conjunction with a nation-wide demonstration of Berkey & Gay quality and value, we are featuring this Chamber Suite during May. In every respect, we consider it one of the most attractive offerings we have ever made.

"The 1776" is truly American—a study of the exquisite creations of our leading designers during the first half-century of our national independence. It has a delightful individuality, made still more charming through the colorful combination of mahogany with New England curly maple.

A characteristic Berkey & Gay production, "The 1776" typifies those qualities in design, workmanship, and finish that make for real worth. It gives convincing proof that furniture worthy of the best American traditions may be bought within the popular price range. So extraordinary is the value at our May quotations that you will be wise to make selection early.

THE MARKETS

NEW YORK STOCKS

NEW YORK, May 26.—There were no important exceptions to the higher range of prices at the active opening of today's stock market, buying orders more than offsetting short selling. The independent steels, aside from Crucible and Vanadium, again led the advance and motors and oils also were strong under leadership of Sinclair and Mexican Petroleum. California Petroleum and Cosden made substantial gains and in the equipment group Lima Locomotive was the outstanding feature. Moderate heaviness was shown by U. S. Rubber, Brooklyn Union Gas and

Atchafalpa. Early foreign exchange rates eased slightly from yesterday's final quotations. Metals, especially the cheaper grades, were taken up more actively during the morning. Lake Erie and Western common and preferred rose 1½ and 2½ points. Reading common and first preferred made like gains and Lehigh Valley, New Haven, St. Paul and Wheeling and Lake Erie preferred rose 1 to 1½ points. Mexican Petroleum continued to feature the oils, increasing its rise to 3 points. Crucible was strongest of the steels, but that group and related equipments were less prominent than usual. Specialties were featured by Coca-Cola, which rose 3½ points to a new high record and tobacco added

to yesterday's gains. Call money opened and renewed into next week at 3½ per cent. Secondary rail, shippings and miscellaneous specialties were the strongest features in today's more active stock market, traders ignoring firmer money tendencies. Sales approximated 1,200,000 shares. The closing was strong.

Chicago Grain And Provisions

CHICAGO, May 26.—Although showing an uptick at the start, wheat prices weakened today during the early dealings. The initial firmness was due to transient options of selling pressure. Receipts here, however, were large, 425 carloads, and with continued heavy deliveries on May contracts, 891,000 bushels, the market soon turned downward. The opening which varied from unchanged figures to ¼¢ higher, with May 1.28½ to 1.29½ and July 1.21½ to 1.22, was followed by a moderate further gain in some cases and then by a setback all around to well below yesterday's finish. Rainy weather hindered field work gave comparative firmness to

Maintenance Of Gold Standard By Foreign Nations Vital, Says Comptroller Of Currency

PITTSBURGH, Pa., May 26.—(By the Associated Press.)—Maintenance of the gold standard by foreign nations is vital, Comptroller of the Currency Crissinger declared today in an address here before the Pennsylvania Bankers' Association. Otherwise, he said, the United States might be left with an enormous store of the yellow metal stripped of its monetary value. To this end Mr. Crissinger advocated adjustment of the foreign war debts to this country on such a basis as would permit of their eventual payment in gold, at the same time expressing the view that immediate payments of interest by the debtor nations was necessary to the economic welfare of the country. "It is not to be believed," he said, "that it is possible at this time to reach a final settlement of all the international obligations. But there is absolute necessity that some general policy shall be agreed upon among the nations with reference to these obligations." There must be, Mr. Crissinger contended, some distribution of policy toward international debts and an adjustment of government budgets to give confidence in the power of states to pay their debts and maintain the basis of money. "It is not necessary, as I view it," he continued, "that Europe shall forthwith begin to pay interest upon its obligations to us. Indeed, today that would mean that Europe must drain itself of its remaining gold and break down the gold standard. The only alternative would be for Europe to furnish us with goods, which we could only accept at the price of substituting them for goods produced by our own industries. In either case our last state would be worse than our first. "The most that can be undertaken at this time—and it must be undertaken soon if we are to avoid disaster—is to reach a workable understanding and settlement as to the future of the international debts due us, and existing between other countries and along with this there must be a serious effort to balance budgets and bring costs of government within the capacities of the nations to pay."

THE WOOL MARKET

BOSTON, May 26.—The Commercial Bulletin tomorrow will say: "The wool market has rallied again this week and prices show a slight advance in the seaboard markets. In the west there has been an excited and very strong market, typified best perhaps by the sale of some 20,000 pounds at San Angelo, Texas, where prices, clean landed, varied from about \$1.20 for clothing wool to 1.35 for the best staple clips or 40 to 52 cents in the grease. Prices have ruled high also for fine wool in the bright wool states, fifty cents having been paid for decline clips in Ohio. The edge appears to be off the western market as the week ends. "The manufacturing situation is hardly changed, the American Woolen company having withdrawn all lines presumably for reprocessing. Government statistics on consumption indicate a sharp reduction in specks consumed in April over March. The foreign markets are generally firm."

SAFE BLOWERS MAKE A DARING RAID; GASOLINE STATION ON TRAIL ROBBED

Safe blowers more daring than ever by working in the shadows of two big street lights and within a few feet of the street, blew the small safe at the Pure Oil Company's station Kinney's Lane and Scioto Trail between 3:30 and 4 o'clock this morning and escaped with a little more than \$97, the gasoline and oil receipts for Thursday afternoon and evening. Police visited the scene this morning about 6:15 o'clock but only found some tools and footprints as clues on which to work.

The oil station is on a corner brightly lighted by a street light and also by a big electric light inside the station. There is another street light in front of Hempstead hospital and it was within the shadows of these lights the safe blowers removed the safe from the station to the vacant lot just south of the hospital where they used two charges to blow the door off so they could obtain the loot from the small drawers inside. John Reeg of 1023 Kinney's Lane, Louis Weiss of 1015 Kinney's Lane, Jacob Zaph and Mrs. Sallie Wise of 1015 Twentieth street and other neighbors heard the two reports but thought that it was someone with a revolver or shot gun. The two reports were about ten minutes apart which showed that the safe blowers were determined in their work and were not frightened away when the first explosion failed to burst off the door of the safe.

Entrance to the oil station, was made through the west window, a child being used to pry up the window which was locked at the middle. The lock was forced open and the window raised. After entrance was gained it was an easy matter to open the Yale lock on the door and the safe was rolled out. It weighs about 400 pounds, but was

at that spot. That the men continued their flight east on Twentieth street and then through an alley near Lincoln school was learned when carpenter contractor Lincoln Poole found a check, bill fold, receipts and money drawer in the alley. After that all trace of the men was lost, no tracks being visible to show which direction they took from the alley where they in all probability involved their spoils and perhaps made a division.

J. N. Shump is in charge of the filling station. He was on his way to work about six o'clock this morning when he met Louis Weiss who lives just east of the filling station and Mr. Weiss told him of hearing the loud shots during the early morning hours. Shump says that he immediately thought of a safe blowing and quickened his steps to the station. He found the door pulled shut but not locked as he left it and he hurriedly pushed it open and looked to his left for the safe which was missing from the office.

He immediately notified the police and Officers Haley and Brinham went to the scene to investigate. In the meantime young men and boys had gathered at the station and had traced the stolen safe by wheel markings on the concrete driveway.

At the paved roadway the marks were raising but a search about the empty lots soon produced the wrecked safe.

A short time later Jacob Zaph reported that grass was trampled down on a lot near his home and when he went back to the spot he found the rubber band off the bilfold. A short time later Lincoln Poole visited the filling station with a check made out

in favor of the Pure Oil company. He was informed by Mr. Shump that the check was one of a number of pieces of paper in a bilfold taken from the safe. Mr. Poole again visited the alley where he picked up the check and in looking about found the empty bilfold, receipts in Mr. Shump's name and other personal papers belonging to Shump and also the small money drawer taken from the safe. The drawer had contained small change.

That the safe blowers made a careful examination of the contents of the safe was shown when Shump found they had taken three of six packages of scrap tobacco he left in the safe Thursday night. He made the purchase Thursday and had not used any of the six packages.

The police on visiting the scene of the wrecking of the safe found a chisel, screw driver, pipe wrench, a dynamite fuse and a torn blue handkerchief. The handkerchief was torn and looked as if it had been used to stuff in a crack of the safe door.

The safe door was blown off its hinges, the vault part of the safe not being damaged. The door was wrecked, the combination mechanism being destroyed and "filling" of the door being torn out by the force of the explosion.

Mrs. Sallie Wise who lives almost opposite the hospital went to the front door of her home when she heard the second explosion. She looked out and although she has a fair view of the lot where the safe was blown did not see anyone there. The men were probably shielded by the pile of lath although they took a big chance in taking the safe from

the oil station as machines pass that corner nearly every minute of the day and night. The men were probably afraid to blow the safe in the oil station office with so much oil and gasoline about.

The police have only the tools in their possession as the best clue to work upon and they will endeavor to learn the name of the owner of the tools found. It is possible they were also stolen and their disappearance may be reported later by some contractor.

John Reeg, who lives on Kinney's Lane, several doors east of the filling station, believes the safe blowers were in his backyard. This morning he said an old automobile he leaves standing in the back yard was moved four or five feet from where it was left last night. The machine is hard to start and it is possible the safe blowers attempted to steal it but abandoned the idea when they could not start it.

D. O. K. K. Minstrel Scores Hit With Sciotoville Audience

Sciotoville's High School Auditorium was packed to the doors last night when the D. O. K. K. Minstrel was presented for the second time, the presentation last night being attended with greater success than the initial performance in the local K. of P. hall several weeks ago. Sciotoville knights had sold over 300 tickets for the show.

The same cast was used last night as on the first night of the show. The players went through their parts much better last night before an audience that included more strangers than the first time.

The audience was profuse in its applause and this gave the performers much encouragement in their efforts.

Fred Larcomp was interlocutor with O. Y. Coriell, H. H. Grice, S. C. Miller and George Brock as the end men in burnt cork. John E. Kah was director with the D. O. K. K. orchestra under the leadership of Russell G. Ketter furnishing the music. In addition to chorus number ballads were given by Frank Luther, "Chick" Grice, Otto Coriell, Ogle Burcham and the D. O. K. K. quartet including George Pressler, Albert Reinhardt, C. C. Bennett and Edward Knost.

The Coontown Wedding scene proved a big scream with Wells Elliott as the parson in the leading role. S. C. Miller, Arthur Flowers and George Brock were others in this scene.

In "The Awkward Squad" scene O. E. Burch was the lieutenant and C. M. Keller, sergeant. Recruits were A. C. Wilson, J. P. Hoertel, S. C. Mil-

ler, George Curnutte and O. Y. Coriell.

Then came the Gus and Fritz act with Floyd Stearnes and John Kah presenting an act that brought down the house.

The show closed with Prof. John Kah's "Think It Over" act of mystery. In this he was assisted by S. C. Miller who enacted the role of "Mary" who disappeared.

J. B. Ross and C. M. Huffman, electricians, deserve their share of credit for the successful presentation of the minstrel.

The D. O. K. K. "actors" are endeavoring to raise a fund that will pay their expenses to the Imperial Palace meeting of D. O. K. K. to be held in Portland, Oregon, next year. The Dokes intend to take their wives with them on this trip.

LIKE CLOUDS ACROSS A SUMMER SKY

foretelling the dreaded storm are the symptoms of women's diseases which point the way to physical and mental breakdown. The nervous irritability, the backache, the dragging pains are not only hard to endure, but they bring certain knowledge of collapse unless something is done to relieve the sufferer. There is one standard remedy which has shown the way out for nearly fifty years. The women who have "come back" through the use of Lydia E. Pinkham's Vegetable Compound present an argument stronger than words could ever be.—Advertisement.

To Speed Up Paroling Of Women Prisoners

COLUMBUS, O., May 26.—(By the Associated Press)—The state board of pardons and paroles will speed up paroling of eligible prisoners at the Marysville women's reformatory as one means of reducing congestion at the institution, which has a population now of 200 against adequate accommodations for only 100, it was declared today by James E. Clark, member of the board.

The congestion became worse than ever yesterday when 50 women who had been working in homes in Union and surrounding counties without having been formally paroled, were returned to the institution. The parole board immediately paroled 14 of the women returned and they will go back to the homes in which they have been employed early in June.

Twenty-six other prisoners, who previously had been granted paroles, effective in July will be released between June 1 and 10, Mr. Clark said. Again on June 20 the board will

hear applications of 25 to 30 new applicants at the reformatory.

G. W. C. Perry, superintendent of pardons and paroles, today was at the state brick plant at Junction City to interview 25 honor men, whose applications are among 200 for hearing at the penitentiary June 6. Nearly 200 applications also will be acted on at the Mansfield reformatory June 13.

Dr. H. S. MacAreal, state director of public welfare, and E. C. Shaw, Akron, chairman of the state prison commission, in charge of plans for the London farm prison, returned today from a visit to New York prisons. Cell blocks at the Sing Sing prison are worse than old cell blocks at the Ohio penitentiary were in their worst days, MacAreal declared, while conditions at the Great Meadows prison in New York, an institution for picked prisoners, of the better type, are the best he ever saw at any prison.

supposed, would prefer renomination and re-election to Congress. But later intimation is to the effect that he will not run again and will take the Cincinnati appointment. The Hamilton county organization has endorsed Charles Bell, assistant county prosecutor.

Three Men Mayor Of Conneaut In One Night

CONNEAUT, O., May 26.—(By the Associated Press)—During a special session of city council last night three men held the position of mayor within ten minutes, one was mayor twice, and three men were mayor, council president, president pro tem and councilman-at-large, within 25 minutes.

The unique political maneuvering was the outgrowth of a recent Ohio supreme court decision holding that public officials of municipalities of more than 2,000 population, who were nominated by petition on an independent ticket, held office illegally.

This decision affected every official

in town from mayor down and the special session was called to find "a way out."

The "out" was a deluge of resignations and re-elections, but it made each a duly elected official and thus dodged the court decision, it is claimed.

As each city official resigned, one at a time, including Mayor D. S. Brace, City Auditor B. A. Palmer, Council President James S. O'Connor and seven councilmen, council immediately re-elected him.

At the close of the session Mayor Brace and all other city officials held their regular offices.

FIREMEN ON STRIKE

POMEROY, O., May 26.—(By the Associated Press)—Business of this city depending upon electric current, was threatened with suspension today when eight firemen at the Forest Run power plant of the Great Lakes Coal Company, which supplies Pomeroiy with electricity, went on a strike because of the refusal of the company to accept the check-off system in its mines.

Dixon arrived in the city Thursday night and on going to the home of Mrs. Elam to stay over night, nothing strange in his actions attracted attention, but his mental condition this morning was such as to give the members of the family some concern, which resulted in the complaint to the authorities.

Thirty-two members of the Selby Girl Bowling League enjoyed the picnic and outing held at the Selby cottage on Rosemount Road Thursday evening. The bowlers left the factory at 4:30 o'clock in one of the big trucks and after arrival at the cottage played various games and en-

joyed bikes over the hills until supper was served at six o'clock at the cottage. The "eats" had been prepared at the factory. After the "eats" different games, dancing and piano and victrola music were enjoyed until about eight o'clock when the party returned to the city.

The outing was a big success, everyone enjoying the affair. Many Mills And Furnaces Heavily Booked For Weeks Ahead; Market Shows Strength

CLEVELAND, May 26.—The Iron Trade Review today said: Underlying conditions in iron and steel show continuing strength. Consumption as measured by the heavy demands upon production still is expanding. With most of the mills and furnaces heavily booked for weeks ahead and further increase of operations started by the uncertainty of the coal strike, the problem of meeting obligations for material is paramount. New business is a shade less vigorous. This is regarded as a

healthy sign, however, as producers are holding a check on buying, especially for future delivery and are restricting it as far as possible to specific requirements. Prolonged deliveries in many lines are causing consumers of steel to make greater efforts to contract for future periods, principally the third quarter. As a rule producers do not care to accept future contracts with present uncertainties as to costs but wire makers this week have been hooking plain wire from the man-

ufacturing trade for third quarter at an unchanged price. An early reduction in freight rates has become something of a market factor this week. Some buyers have been held off in placing orders for forward delivery in the hope that such a reduction would influence the price situation. Authoritative advices from Washington indicate that the railroads probably will agree to voluntarily reduce rates on certain basic commodities including iron and steel which the interstate commerce commission feels it cannot do under the existing law.

Car orders are keeping up well. The week's total was approximately 5000. This brings the total for the month to date to 17,000 and since Jan. 1 to more than 85,000.

The Iron Trade Review's composite market average of fourteen iron and steel products is practically unchanged this week. The composite is \$36.02 compared with \$36.60 one week and \$36.50 two weeks ago. Transactions in foreign pig iron are arousing more general interest. A Delaware river pipe maker has purchased one cargo and Pacific Coast consumers another of Scotch iron. The price is around \$24 c. l. f. Atlantic ports, compared with \$25.54 the prevailing price of eastern No. 2X at Philadelphia. Another lot of 250 tons of Belgian iron has been placed on the Pacific coast. The Iron Trade Review's market cable from London this week reports further sales of 1500 tons of British iron for delivery at Baltimore and an inquiry for 10,000 tons under negotiation.

WHY THE TORRINGTON SWEEPER CLEANS BETTER

A real bristle brush is set right in the middle of strong suction nozzle. It revolves like a carpet sweeper. Wherever the Torrington goes no dirt remains. It gets it no matter where it is and especially the dirt that is ground down in your rug and only strong suction will do that. The Torrington employs all its electric power to make that suction so strong that it gets it all. That big brush and powerful suction is the main secret of the Torrington perfect cleaning. Let us demonstrate to you what it will do.

Game Tonight

Excelsior vs Central Labor.

The Vulcan Last company's entry in the class Industrial league got away to a good start Thursday evening when the athletes led by "Shorty" Shultz, who led the Excelsior club, 7 to 3 before a huge assembly at the Friday street arena, the victors knocking off the combat mainly because their opportune hitting of the offerings of Hubert Test and the fast support behind the steady pitching of "Doc" Baughman, eminent southpaw, who, too, was wallowed severely on a couple of occasions, the two "Teds" Doherty and Weber, leading the assault by dividing five of the nine safe runs garnered by their team, the former with three, including a triple and the latter with two, including a three cushion shot. The consistent swinging of this stimulative pair was easily the feature of the exhibition and but for the fact that the game was heavy and prevented fast work on the paths there might have been a different story to tell. Speedy work in the field by Shultz's pupils resulted in three of the enemy being cut down at the plate and "Val" was mean enough to work the old math-eaten hidden ball trick when he nipped Weber after the latter had tripped in the sixth.

Here's how it was played: First Inning—Shultz hit Test's first offering for a line double to left. Stuten sacrificed, Test to Spencer. Valodine singled to short, Shultz scored. McDaniels rolled to the box and Thimmes sent a roller to short. One run, two hits, no errors.

Doherty doubled on Baughman's first pitch. Banfield rolled to short. Doherty taking third. Baughman's grounder to Valodine was well handled. Doherty dying at the plate. Barber shot a long double to left, but Hengsen was slain at the plate on Valodine's relay of Thimmes' chuck. Two doubles failed to produce a marker. No runs, two hits, no errors.

Second Inning—Haupt sent a long fly to Banfield. Crawford's single hit a rough spot and bounded by "Bart" for a triple. Webb singled past short, Crawford registering. Baughman hit into a double play. Barber to Spencer. One run, two hits, no errors.

Spencer fanned. Bradford singled to third. Lowry popped to Shultz. Weber singled to right, Bradford going to third. Weber and Bradford tried the double steal, but it flunked when the latter was killed at the plate on Manager Shultz's perfect return. No runs, two hits, no errors.

Third Inning—Shultz flied to left. Stuten doubled to center. Valodine tripled to right, Stuten scoring. McDaniels fouled to Hengsen. Thimmes fouled to Weber. One run, two hits, no errors.

Fourth Inning—Haupt rolled to third. Crawford grounded to second and so did Webb. No runs, no hits, no errors.

Barber walked on four wide ones. Spencer fanned. Bradford forced Barber. Valodine to Crawford. Lowry's effort was handled by Crawford. No runs, no hits, no errors.

Fifth Inning—Baughman fouled to Weber. Shultz was checked out by Test. Stuten looped to Barber. No runs, no hits, no errors.

Webb walked. Test waved at the crowd—three. Doherty singled to center. Banfield lined to Haupt. Hengsen singled past Crawford. Weber scoring. Barber singled to center. Doherty scoring. But Hengsen was milled at third. Two runs, three hits, no errors.

Sixth Inning—Valodine died, third to first. McDaniels singled to Hengsen's shins. Valodine stole, Thimmes walked. Haupt was tossed out by Test. Smith batted for Crawford and his single to right not only justified Manager Shultz's judgment, but scored McDaniels and Thimmes. Webb singled to right. Baughman fouled to Weber. Two runs, three hits, no errors.

Seventh Inning—Shultz walked. Stuten popped to Spencer. Shultz took second on Weber's wide toss to first. Valodine walked. McDaniels singled to left, scoring Shultz. Valodine scored on Thimmes' out, short to first. Haupt was tossed out by Hengsen. Two runs, one hit, one error.

Schwamberger batted for Test and rolled to second. Doherty tripped to deep center. Banfield fanned. Hengsen fanned. No runs, one hit, no errors.

STIVERS HAS A REAL TEAM
Coach Stivers of Glenwood high school, New Boston, has organized a fast nine in the school, the team winning three and losing one to date.

Thursday the Glenwood nine defeated the Holy Redeemer nine of Portsmouth by a score of 4 to 3, the game being staged on the Millbrook diamond.

The Holy Redeemer nine took the lead early in the game and held it until the seventh frame when New Boston staged a rally that tied it 3 and 3. The game was won in the ninth, Glenwood putting a runner across before an out was recorded against them.

Harris, Combs and Morris worked for the winners and Connors and Lillick for Holy Redeemer.

A game scheduled with Scitoville high for this afternoon was cancelled yesterday by Scitoville. A return game will be played June 9 with Holy Redeemer.

Glenwood has a big game on June 13 at Millbrook when the Xenia high school team will be the opposing nine. Tickets for this game are on sale as it will be necessary to pay the expenses of the visiting team.

Soft Money Ahead For One Tut Jackson
COLUMBUS, May 26—Jack Johnson, negro boxer, and former heavyweight champion of the world, will resume his ring career after a long period of retirement, with a bout with "Tut" Jackson, Washington C. H., Ohio, negro heavyweight. It was announced here today. Johnson and Jackson will meet either at Washington C. H., or Dayton, on the afternoon of July 4, it was announced. Jackson today posted a \$2,000 guarantee of good faith and Johnson announced he would do likewise in a few days.

Johnson was suspended by the national boxing commission after he had served a term in the federal penitentiary at Ft. Leavenworth, Kansas, for violation of the Mann act, but neither Washington C. H. nor Dayton hold memberships in any boxing association and Johnson's status would not affect a match there, it was said.

Raymond Lewis III
Raymond Lewis has been ill several days at his home, Fourth and Gay streets.

Home Run Hitters On A Rampage

NEW YORK, May 26—Baseball's home run clouters are on the war path. Yesterday's games were featured by circuit swats and the unwanted antics of circuit swatters.

Babe Ruth didn't get a home-run, he pulled a new one—threw dust in an umpire's face, went a gunning for a fan that boned him and was banished for the rest of the afternoon.

It appeared today that Babe would draw another suspension or a heavy fine or both.

His team mate, Bob Meusel, who recently returned with him from exile, helped the Yanks to their 6-4 victory over the Senators by hitting twice for the circuit.

Opposing players, Rice and Judge, hit for one round trip each.

Wilbert Robinson's Dodgers, in two games against the slipping Phillies, collected five homers. Zach Wheat hit his fifth of the season and the others went to High, Myers, Deberry and Johnston. Peters and Leslie, of the Phillies, drove for one each. Incidentally Brook-

lyn won both their games.

Rogers Hornsby against Pittsburgh, batted out his tenth homer of the season and his fellow player Ainsmith got one. But the Cards lost, 7 to 3.

Harry Heilmann, the Detroit slugger, knocked out his seventh this season against Cleveland. Altogether the homers in both leagues yesterday numbered 14. Five went to the Americans and increased the season's total for the league to 133, while the nine in the National brought the season's total to 93.

"LOVE POTIONS"

In these days of the revival of ghosts and witchcraft, it is but natural there should be a return to the love potion, that mysterious draught by which the wandering affections were supposed to be brought back and fixed where they belong, or waning love made to increase.

But the original recipe for the love potions seems to have been mislaid, or the ingredients have lost their strength, or some kind of a near potion is being palmed off on the trusting. For a woman in Chicago tried a love potion to bring back her husband's love with distressing effect.

Not only did the potion fail to do as advertised, but it spoiled the coffee in which it was administered. This aroused the ire of the unloving husband and made him more unloving than ever, in fact so unloving that he beat his wife, and instead of bringing joy and affection into the home the love potion brought the home into the police court.

It may not have been the fault of the potion at all, for it has been out of vogue so long that how to make and serve it has become a lost art and should be revived in courses of domestic science. The wife may have simply used too much of it, causing the husband to return to the cave-man method of showing his affection. For there was a time, so tradition says, when a woman measured her husband's affection by the blows he gave her and only doubted it when he became so indifferent as to forget to beat her.

SUNSHINE AND HEALTH

A committee of scientists is in session at London to ascertain and advise the government on the effects of sunlight in health and disease. The inquiry was stimulated by the fact that 1921, one of the sunniest years England has ever had, showed the lowest death rate on record, 12.1 per 1,000 of population. A chart showing the last three months of 1921 and the first four of 1922 strengthened this conclusion. As the dark shadow rises—the lack of sunshine—the death rate mounts, not immediately but about two weeks later, but with sufficient regularity as to indicate cause and effect.

The governmental interest is to increase the proportion of sunshine by greater efforts for smoke prevention and the elimination, as much as possible of the "London particular"—the fog which hangs like a pall over the city in certain months. It is also proposed to make the findings the basis for an educational campaign for daily "sun baths" for more general enjoyment of what sunshine there is—"the world's antiseptic." Too many, thoughtless of the demonstrated benefits of sunshine as a germicide, take it as it comes, when their health and well-being might be immensely helped by systematic seeking of the solar radiation.

INDIVIDUAL TEACHING

CRITICISM of the results of modern teaching has advanced in England to constructive experiment. Once the idea that the prevalent modern method might not be the last word in teaching gained hold, it was inevitable that other methods should be examined and tried.

Individual teaching is one substitute proposed in London. Instead of children being grouped by ages, class rooms may have children of all ages, according to their progress in that particular subject. In reading, for example, children are not limited to reading in class by turn, but are allotted certain books and with the pledge to do a certain amount of reading may do it at pleasure. This system is followed in other subjects. The form rooms are made into laboratories for each subject, and the pupils may elect to divide their time according to their needs. The results are reported to be instructive.

One value of the new plan is to develop a sense of personal effort and responsibility much greater than under the competitive class method. But the chief gain is the thoroughness attained. The children are taken out of the lockstep and liberated for self advancement.

CHILD LABOR DECISION

THE second effort of congress to limit child labor has been declared unconstitutional in method by the supreme court. The bill, which sought to exclude the products of child labor from interstate commerce, was held invalid some years ago. Congress attempted to get around that decision by imposing a tax on child labor products. This also is overruled by the judgment delivered by Chief Justice Taft.

The government in presenting the case had argued that the court should not go into the motives of congress in imposing the tax. The opponents of the law, North Carolina mill owners, argued that congress, in attempting to restrict child labor, was infringing upon the police powers of the state, and since it could not do it directly, tried to attain the same object by indirect under the power of taxation. The solicitor general had admitted that if the court did not go into the motives of congress it "would be possible for the powers of the federal government to be utilized to secure objectives beyond the scope of federal authority."

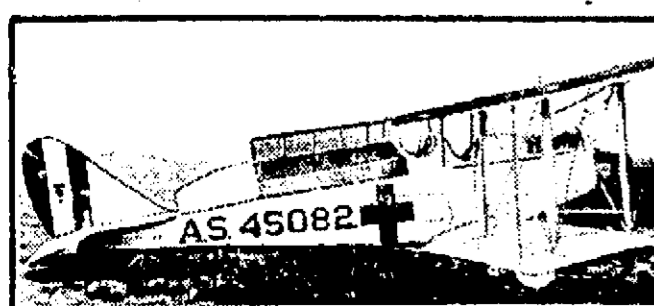

The decision, therefore, will have far reaching implications on the trend towards extension of federal power and the relations of our system of dual government. As to federal prevention of child labor, it is doubtful whether congress can find another expedient.

AARON, THE HIGH PRIEST

THE Lord gave Moses more laws and told him what animals, birds and fish the children of Israel might eat. Then God came and dwelt in a cloud above the mercy-seat where the ark was kept. This was the most holy place and only Aaron the high priest could enter. Before going in he was to wash that he might be clean and put on a dress of plain white linen, for he must be dressed humbly before the Lord. Sacrifices he was to offer for the sins of the people and to sprinkle the blood of the sacrifices before the mercy-seat.

New York-Day-By-Day

BY O. O. MCINTYRE

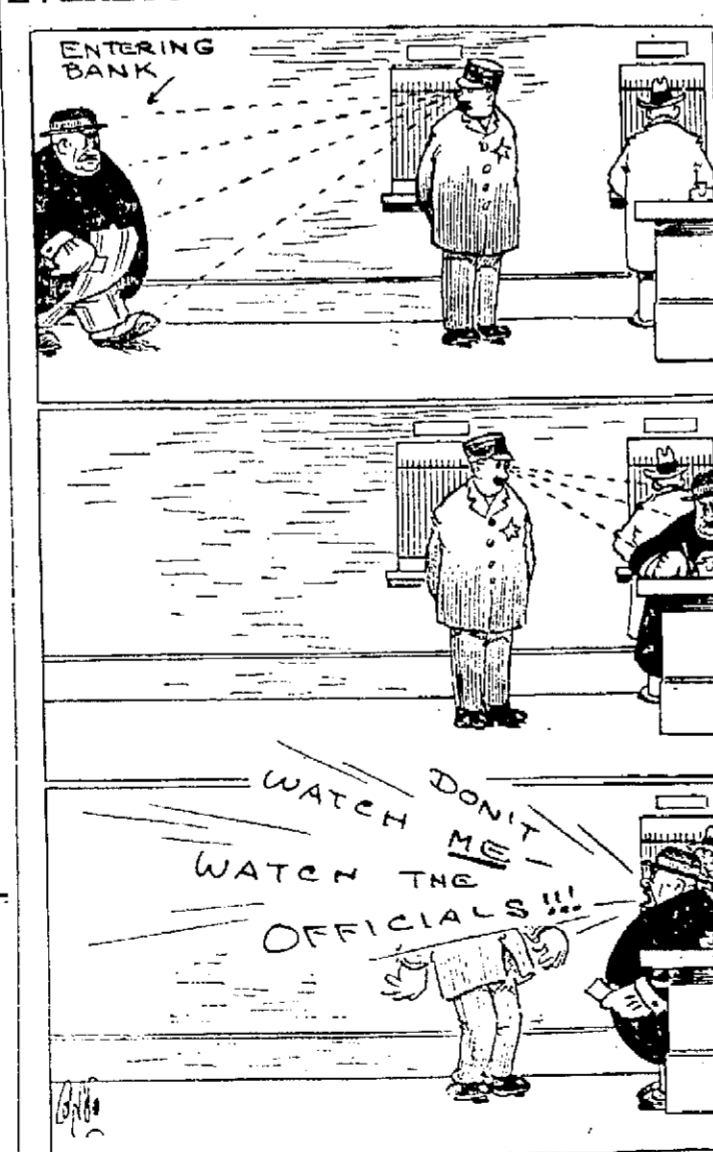

NEW YORK, May 26—Thoughts while strolling around New York: Slaves of the gasoline trail. Off to the hills. Kilted drivers, with strained expression and lustrous folk looking in haughty indifference. A day with a heard a 1-imperial. That fellow wears a derby while he cuts. Elderly routes with only fruit memories. Still flappers cry. Any old sport in a storm.

Souls, Rachel and Becky parading from the lofts. Factory girls who wear knee slippers studded with shining rhinestones. Going to tweed to sleep—ten in a room. Rapid luncheon at soda fountain. The opening glare of dance hall "sex-aphones." And the bells of Hell go tinkling.

A blue jay and cardinal in a tiny square. More gaudy palaces to house dead white sheets. I'm tired of seeing white triumph. And the wicked faded. Fops with tiny handkerchiefs tucked under wrist watch straps. Headman bring the ax. There's Norma Talmadge. In a magenta cape. Until a few days ago I thought magenta was a building. Old Chelsea district. Gray, blunt streets. Brown stone fronts. New.

Old-Fashioned Things

I am longing today for a whiff of perfume. From the old-fashioned roses and posies in bloom. For the lilac and pinks and the posies that grow. In the garden of Memory, row upon row. For the old-fashioned pleasures of life, if you please.

For the old-fashioned pleasures I knew long ago, Ere the callous had grown on the soul of me so, And the bridge of my nose was a freckle brown span Reaching down to the wrinkles where laughter began;

When my mirth was as true as the sun on the dew— Oh, I long for the old-fashioned pleasures, don't you?

And More To Come
He—"What's the idea of inviting those horrid Joneses to our wedding?"
She—"Well, we need their presents, don't we?"

As Near As Possible
The New Boarder—"Is this punkin pie?"
The Old-Timer—"I dunno. It's punkin pie, all right."

A Fruitless Victory
Marge—"How's Dolly getting along?"
Marjorie—"Only so so. She got her divorce, but is unable to collect the alimony."

IF YOU ARE WELL BRED
You will not insist that a guest eat more food when he has refused a second helping.
You will not indicate your personal dislikes through the use of sarcasm in your conversation.

You will, when entering with your mother, allow her to pass first.

A Swarm of "Bees"
Be polite—Politeness will get you out of more difficulties, climb you more hills, cut you more buried wires, and you more smiles, than any other quality you can acquire.
Be sure—Don't guess—Don't suppose. Find out exactly—Know—and if you don't know, ask.

Be clean—Water and whisk brooms are cheap.
Be honest—Even when nobody's looking.

Be on time—People that have to wait for you don't like you.
Be patient.

Be cheerful—And if you can't be cheerful look cheerful anyhow.
Be considerate—Don't be officious nor meddlesome, nor a nuisance, but—You know—Be considerate.

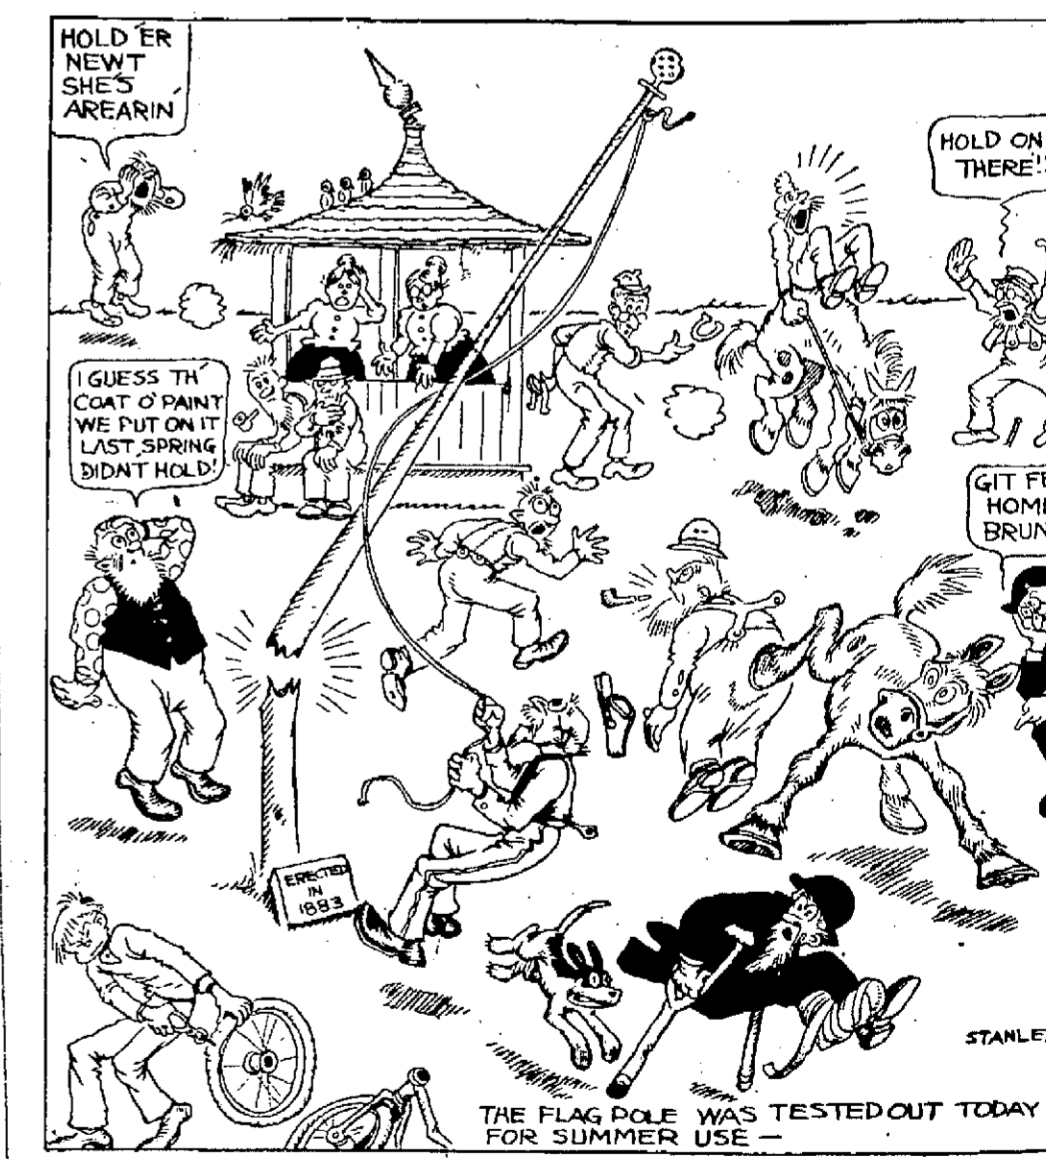

Be careful—Better be careful a hundred times than get killed once—Look out for these bees.

—DR. FRANK CRANE.

Nothing to Fear
Suitor—"What is it you have to say to me?"
Her Little Brother—"You needn't be afraid to propose to sister. I heard her tell ma she was going to refuse you."
